1. Introduction

1.1 Introduction

The public transport market has undergone significant change over the last ten years in Ireland. From having seen overall passenger journeys rise substantially to a high in the period 2005 – 2007, the trend then changed dramatically as journey levels fell abruptly as the fortunes of the economy deteriorated. Total passenger journeys have once again begun to grow; however, this can mask the fact that there are many ongoing changes constantly occurring within the public transport market.

Expressway is the brand name for Bus Éireann's commercial intercity network of bus services. These services are licensed by the National Transport Authority under the provisions of the Public Transport Regulation Act, 2009 and the Authority's published 'Guidelines for the Licensing of Public Bus Passenger Services'¹. Similar to other commercial bus operators under license to the Authority, Bus Éireann receives no Public Service Obligation (PSO)² compensation for the provision of *Expressway* services.

J.J. Kavanagh Coaches also provides a number of intercity bus services that are licensed by the Authority and they operate on a commercial basis, receiving no PSO compensation.

The Authority regularly receives amendments to operators' licences that can involve changes to the timetable, frequency, or stops served on the licence. Both Bus Éireann's *Expressway* and *J.J. Kavanagh & Sons* have requested such amendments. It should be noted that when these amendments are received, there is no legislative framework to refuse a request for an amendment where the Authority considers there would be no adverse impact on any other commercial or contracted (PSO) service.

This report addresses in particular Bus Éireann *Expressway* Route 7 north of Clonmel. The towns south of Clonmel that are currently served by Route 7 will be addressed in summary form.

¹ Available here: http://www.nationaltransport.ie/downloads/guidelines_for_licensing_public_buses.pdf

² 'public service obligation' means a requirement defined or determined by a competent authority in order to ensure public passenger transport services in the general interest that an operator, if it were considering its own commercial interests, would not assume or would not assume to the same extent or under the same conditions without reward.(REG. 1370/2007)

1.2 Operating Environment

The economic climate over the last number of years has been challenging for passenger transport companies generally as they have been experiencing falling passenger demand resulting in reduced revenues, while simultaneously experiencing increases in costs, e.g. fuel. However, these conditions have begun to change and a better economic outlook should see growth returning in passenger journeys.

The improvement in road infrastructure between major towns and cities has had a variety of impacts. Car journey times between town and cities have fallen substantially and this has posed a challenge for the public transport alternatives. A number of operators have reacted by taking greater advantage of the improved road infrastructure to reduce their journey times and offer more direct services. This has resulted in a more attractive offer for end to end travellers; however, it has also meant that some operators have sought to withdraw from locations along the route so as to keep journey times short or because the level of demand at these locations is low.

1.3 Recent Licensing History

Bus Éireann Expressway Route 7 service

Bus Éireann currently operate Expressway Route 7, Licence 11181 from Cork (Parnell Place) to Dublin Airport serving Cork, Rathcormac (Sunday only), Fermoy, Mitchelstown, Ballyporeen, Clogheen, Cahir, Ardfinnan and Clonmel. From Clonmel the following locations are also served: Clonmel Rail Station, Kilsheelan, Carrick-on-Suir, Grangemockler, Callan, Kilkenny Ormonde Road, Kilkenny Train Station, Paulstown, Muine Bheag, Royal Oak Cross, Leighlinbridge Cross, Carlow I.T., Carlow Barrack Street, Castlecomer, Crettyard, Newtown Cross, Ballylinan Cross, Athy, Kilcullen, Naas, Dublin Busáras and Dublin Airport, and a return offering to most of these locations except Dublin Airport and Muine Bheag. It should be noted that some of these locations are served by as little as one service a day, see Appendix A.

Following a licence amendment application from Bus Éireann, they now intend to operate their re-numbered Expressway Route X7 from Clonmel Rail Station, Clonmel M&S, Grangemockler, Callan, Kilkenny Ormonde Road, Kilkenny Train Station, Newlands Cross, Heuston Station, Custom House Quay (Busáras) and Dublin Airport and return. Focusing on services between Clonmel and Dublin, this will result in Rathcormac (Sunday only), Kilsheelan, Carrick-on-Suir, Paulstown, Muine Bheag, Royal Oak Cross, Leighlinbridge Cross, Carlow I.T., Carlow Barrack Street, Castlecomer, Crettyard, Newtown Cross, Ballylinan Cross, Athy, Kilcullen and Naas, no longer being served by Bus Éireann's Expressway

Route X7, with all services being extended to Dublin Airport. This licence has now been granted and the timetable is included in Appendix B.

The route change incorporates the company's intention to reorganise and rationalise the services from Clonmel to Dublin, so as to operate exclusively a timetable of limited stop services. The existing licence 11181 (Route 7) has 42 services from Clonmel to Dublin and return (43 from Kilkenny and 42 to Kilkenny), whereas Bus Éireann's new Route X7 has 56 services in each direction from Clonmel to Dublin City and Airport.

J.J. Kavanagh's (Kenneally's) Tramore to Dublin Airport service, Licence 03119 (Route 736)

Kenneallys Bus Service Ltd (T/A JJ Kavanagh & Sons) provides commercial Route 736 between Tramore and Dublin Airport via Waterford and Dublin City. The Authority granted an amendment to this licence which incorporated adjustments to the timetable, the introduction of faster, more direct services and a reduction in the service being provided to a number of intermediate locations including Mullinavat, Ballyhale, Thomastown, Gowran, Paulstown, Leighlinbridge, Castledermot, Kilcullen and Naas. The company introduced this change on 5 January 2015.

J.J. Kavanagh's (Avalen) Clonmel to Dublin Airport service, Licence 95149 (Route 717)

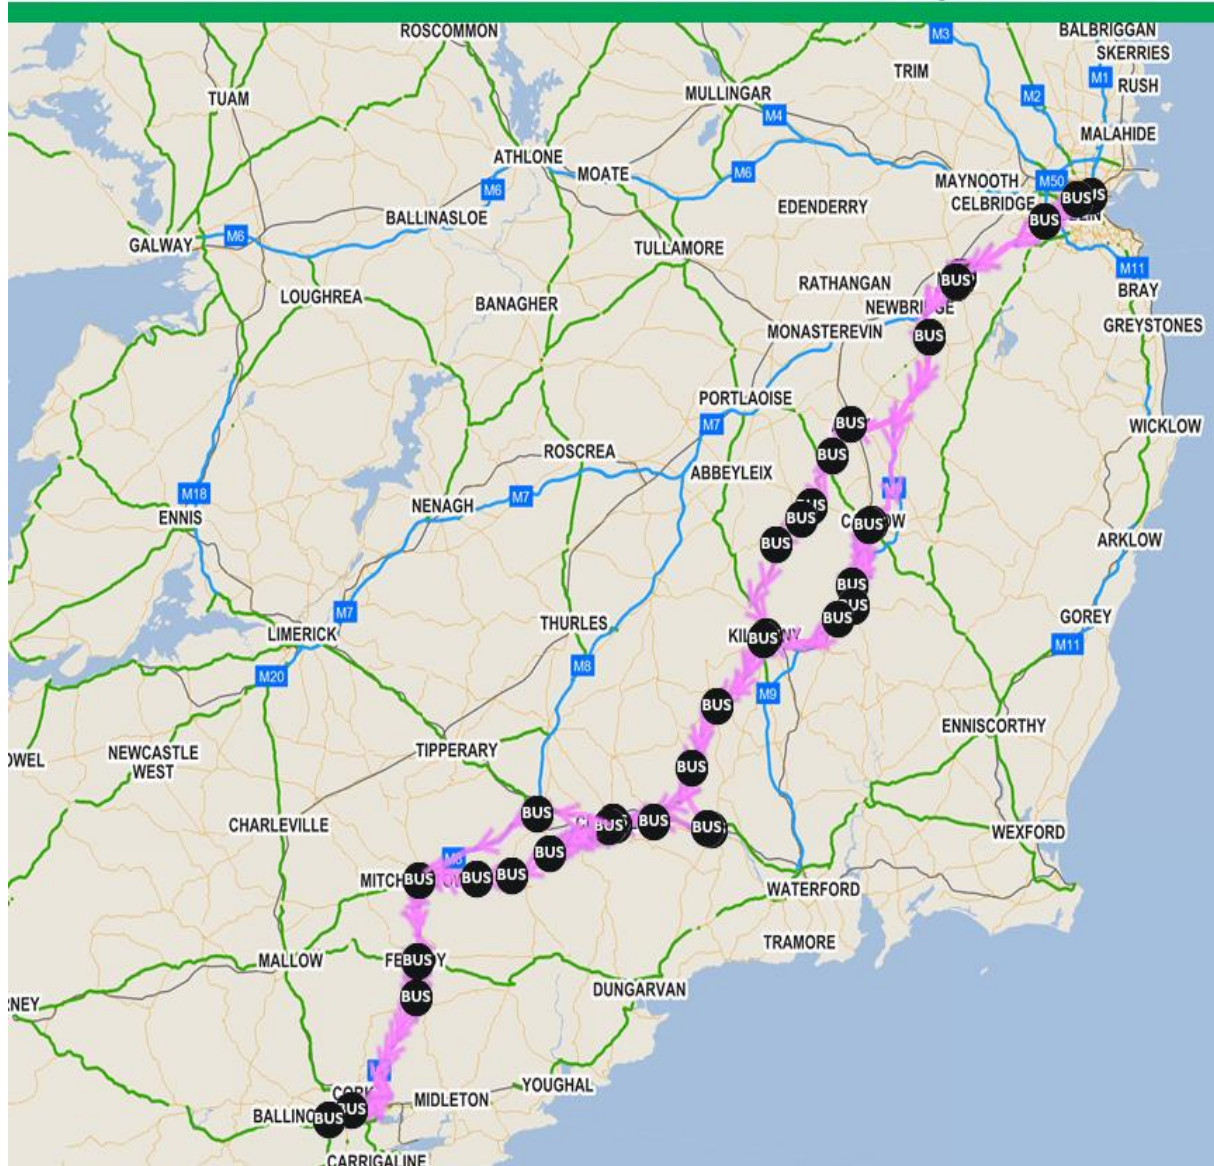

Avalen's Clonmel to Dublin service served the following locations: Clonmel, Kilsheelan, Grangemockler, Callan, Kilkenny, Castlecomer, Ballylynan, Athy, Kilcullen, Naas, Luas Red Cow, Dublin – Eden/George's Quay and Dublin Airport. They ran the same timetable Monday to Sunday and they ran six services in each direction.

Avalen made an application which was granted in late November to run seven services in each direction Monday to Sunday but they also intended to run a much more direct service that would no longer serve a number of the locations previously served. The locations that would no longer be served included Castlecomer, Ballylynan, Athy, Kilcullen and Naas. This offer was accepted; however, in early January 2015, Avalen submitted an additional amendment application requesting a Set-Down Only stop at Heuston Station. An offer including this additional stop was made but the amended service was not implemented. In April Avalen made a further application which was granted to retain four of their services as multi-stop and these services would continue to serve Castlecomer, Ballylynan, Athy, Kilcullen and Naas. The new timetable for Avalen (JJ Kavanagh & Sons) Route 717 is attached in Appendix C. This licensed service is being operated to this timetable since 25th May 2015.

1.4 Current Status

Bus Éireann's Expressway Route 7

Although Bus Éireann continues to operate the Route 7 in accordance with the older timetable, see Appendix A, they have now been granted a licence the timetable of which is outlined in Appendix B. They propose commencing to operate the new timetable on 28th June 2015 and they will no longer run their existing multi-stop service between Cork and Dublin (licence number 11181) but will switch to the Clonmel to Dublin Airport X7 service.

3. Service Options

3.1 Route analysis

Links

In the absence of passenger data, the Authority concludes that Bus Éireann and J.J. Kavanagh are withdrawing from some locations or reducing the services to some locations where passenger numbers are low. It is also probable that serving some locations has a negative impact on travel times because it involves the bus leaving the motorway network and so these towns may no longer be served due to relative low passenger numbers in conjunction with the loss of travel time.

As a result of the changes to both Bus Éireann Expressway Route 7 and JJ Kavanagh's Route 717, a number of gaps in services have been identified. There are a number of key towns whose services to main urban centres, educational centres, regional and local centres have been curtailed if not removed altogether. The Authority has examined each of these locations and proposed some replacement services. Following consultation with local representatives, at public meetings and meetings with Local Working Groups a number of proposals for additional services have been devised.

Following dialogue with local representatives and the local working group, these options were further developed including the provision of services on Saturdays and Sundays. The proposed timetable incorporating the additional services to be procured for Castledermot is attached in Appendix G.

Options for Cork to Clonmel including Clogheen and Ballyporeen, Fermoy & Mitchelstown

In order to replace the links between Cork and Clonmel, the Authority is extending the existing PSO contracted service Bus Éireann Route 245 from Mitchelstown to Clonmel with additional link services being procured by Cork Locallink office. These services are outlined in Appendix I.

4. Authority Interventions

The Authority has taken a number of actions to provide services to address the gap in services caused by the change in BÉ Expressway Route 7 and the reduction in JJ Kavanagh's Route 717 and 736 services in certain towns. The Authority has procured a number of services as follows:

Castlecomer

The Authority is in the process of procuring two additional off peak services to be provided to the affected areas (one tender per service). One service will operate from Kilkenny to Dublin City every day with a second service operating from Naas to Castlecomer on Mondays to Fridays. The detail of this service is attached in Appendix H. The tenders are about to be awarded. Bus Éireann has agreed to operate this service until the Authority's contractor has fully mobilised.

The fare table for the service is being developed and a through-ticketing arrangement will be put in place with Bus Éireann's connecting 126 service in Naas. Free Travel passes will be accepted on this service.

The combined timetable of the PSO and JJ Kavanagh services through Castlecomer are detailed in Appendix F. There are potential connections built into the PSO proposed timetable at Athy with rail and at Castlecomer with services provided by Denis Buggy for onward travel to and from Kilkenny. The proposed service also serves Naas Hospital.

Castledermot

The Authority has agreed a timetable of the proposed service for Castledermot following representations from the local working group and council representatives. Three additional PSO

services from Carlow to Naas are proposed and their timetable is included in Appendix G including other services on the corridor and potential links from the service. This service is being procured by the Kildare & South Dublin Locallink office on behalf of the Authority.

Carrick-on-Suir

The Authority is procuring through Carlow- Kilkenny Locallink office a service from Carrick-on-Suir to Grangemockler which would link with the new Bus Éireann Expressway Route X7 service and JJ Kavanagh's Route 717. The proposed timetable is attached in Appendix E.

Clonmel to Cork

Following the withdrawal of Route 7 between Clonmel and Cork, the Authority has agreed to extend the PSO route 245 from Mitchelstown to Clonmel on a limited basis. A further consequence is that all journeys between Fermoy and Mitchelstown/Clonmel will follow the main road via Kilworth. This leaves Kildorrery and Glanworth (previously served) with no service. The Authority has procured through Cork Locallink office some local services which will connect with 245 at both Fermoy and Mitchelstown for onward travel. This has the added benefit of providing additional services from Mitchelstown. These connecting services will have Route number 245C assigned and be included in the main BE timetable, a copy of which is attached in Appendix I.

5. Conclusion

The range and availability of alternative public transport services from the locations affected by the withdrawal or reduction of Bus Éireann and J.J. Kavanagh services is considered for most areas to be adequate to meet demand.

The Authority is primarily concerned that transport links that allow the public to access ordinary every-day services are available. These socially necessary needs would include being able to reach the local market town or urban centre to be able to carry out tasks such as visiting a doctor, dentist physiotherapist or optician; be able to go clothes shopping; having access to a greater variety of shops selling food or drinks items; possible visit a bookshop or a jewellers where a watch may be fixed, et cetera.

The Authority has determined that there is a Public Service Obligation to provide additional services in a number of locations as the social need for public transport services is not now being met by the

remaining level of services. Those services are now being procured and will be operational over the next number of weeks.

The Authority has extended Bus Éireann Route 245 for people travelling between Clonmel and Cork also serving Ardfinnan, Clogheen & Ballyporeen. Local Link Cork will additionally provide services on Route 245C giving an enhanced level of service between Mitchelstown and Fermoy via Kildorrery & Glanworth.

The Authority has introduced a new connecting service (Route 817C) provided by Local Link Carlow-Kilkenny between Carrick-on-Suir and Grangemockler where passengers can change on to Route 717 provided by JJ Kavanagh & Sons and revised Route X7 provided by Bus Éireann for onward travel to Callan, Kilkenny and Dublin City.

The Authority is also in the process of procuring additional services on Route 817 between Kilkenny and Dublin City and between Naas and Castlecomer including serving intermediate locations at Moneenroe, Ballylinan, Athy and Kilcullen. To ensure continuity of service for the affected locations, temporary arrangements have been put in place for Bus Éireann to provide these services pending the completion of the procurement process.
