  - (e) the revocation of the licence under the Principal Act, or
  - (f) the licence holder ceasing to be legally entitled to the use and possession of the vehicle to which the small public service vehicle licence relates.
- (4) Where a small public service vehicle licence is renewed in respect of a vehicle referred to in paragraph (3) that is a vintage limousine or is used solely on an off-shore island, such licence shall expire on the earlier of –
- (a) where the licence is renewed before the expiry date specified on the licence, the date falling one year after such expiry date,
  - (b) where the licence is renewed after the expiry date specified on the licence, the date falling one year after the date on which it was renewed,
  - (c) the date upon which the vehicle reaches its maximum permissible age,
  - (d) the surrender of the licence by the holder,

- (e) the revocation of the licence under the Principal Act, or
  - (f) the licence holder ceasing to be legally entitled to the use and possession of the vehicle to which the small public service vehicle licence relates.
- (5) A person shall not apply to the Authority for the grant of a small public service vehicle licence in respect of a vehicle that has reached its maximum permissible age.

#### **Change of vehicle**

16. (1) An application for the continuance in force of a small public service vehicle licence in respect of a different vehicle shall be made to the Authority accompanied by the fee specified in Schedule 1.
- (2) The Authority may approve the continuance in force of a small public service vehicle licence in respect of a different vehicle where -
- (a) the applicant provides -
    - (i) evidence, in form and substance satisfactory to the Authority, that a test certificate has been issued not more than 90 days prior to the date of the application in respect of the vehicle the subject of the application,
    - (ii) a valid tax clearance certificate for the time being in force in respect of the applicant under section 1095 (inserted by section 127 of the Finance Act 2002) of the Taxes Consolidation Act 1997,
    - (iii) evidence, in form and substance satisfactory to the Authority, that the vehicle the subject of the application is covered by insurance provided by a vehicle insurer (within the meaning of section 58 of the Act of 1961) in respect of passengers carried for reward in such vehicle,
    - (iv) subject to paragraph (3), in the case of an applicant who is a non-national, a declaration by such person that the conditions of his or her permission do not preclude him or her from operating a business or being self-employed in the State,
    - (v) evidence, in form and substance satisfactory to the Authority, that the applicant is -
      - (A) the registered owner of the vehicle the subject of the application, or
      - (B) legally entitled to the use and possession of the vehicle the subject of the application for a period of not less than 12 months from the date of the application,
    - (vi) where the applicant is a company, the information required under section 9(10) of the Principal Act,
  - (b) in the case of a modified vehicle, the application is accompanied by evidence, in form and substance satisfactory to the Authority, that the vehicle to which the application relates complies with the requirements of Regulation 29,

- (c) in the case of an application in relation to a wheelchair accessible taxi licence or wheelchair accessible hackney licence, the following information –
    - (i) the names of any persons, including the licence holder, proposed to drive or use the vehicle to carry passengers for reward,
    - (ii) all contact details available for the purposes of making a booking in respect of the vehicle,
    - (iii) the areas of the State in which the licence holder proposes to drive or use the vehicle to carry passengers for reward, and
    - (iv) the days and times during which the licence holder proposes to make the vehicle available to carry passengers for reward, and
  - (d) the Authority is satisfied, following an assessment of the vehicle by or on behalf of the Authority, that the vehicle meets the requirements applicable to the relevant vehicle licence category under Part 4 of these Regulations, provided that where the Authority has determined that a specific vehicle type or model does not comply with the requirements applicable to such vehicle licence category under Part 4 of these Regulations, the Authority may refuse to grant the licence without an assessment of the specific vehicle being carried out.
- (3) A person who has made a declaration in accordance with paragraph (2)(a)(iv) shall, if requested by the Authority, produce evidence, in form and substance satisfactory to the Authority, that the conditions of his or her permission do not preclude him or her from operating a business or being self-employed in the State.
  - (4) Except in the case of a limousine licence, the Authority shall not approve an application under paragraph (1) where the vehicle in respect of which it is proposed to continue the licence in force has reached the tenth or later anniversary of the date of first registration of the vehicle.
  - (5) Where the Authority approves the continuance in force of a small public service vehicle licence in respect of a different vehicle, the licence is deemed to have been renewed by the Authority under Regulation 14 with effect from the date of such approval.
  - (6) Where a small public service vehicle licence is continued in force in respect of a different vehicle under this Regulation and, within eight weeks of such continuance in force, the original vehicle is re-instated on the licence, the licence holder may apply to the Authority for a refund of fifty per cent of the fee paid by the applicant under paragraph (1).
  - (7) Subject to paragraph (8), in the case of a new wheelchair accessible taxi licence or a new wheelchair accessible hackney licence issued under these Regulations, the Authority may only grant an application under paragraph (1) where the vehicle in respect of which it is proposed to have the licence continued in force is, on the date such application is received by the Authority, not older than the vehicle associated with the licence at the time of such application.
  - (8) For the purposes of paragraph (7), where no vehicle is associated with the licence at the time of an application under paragraph (1), the Authority may only grant such application where the vehicle in respect of which it is proposed to have the licence

continued in force is, on the date such application is received by the Authority, not older than the last vehicle which was associated with the licence.

- (9) The holder of a standard taxi licence may apply to the Authority for the continuance in force of such licence in respect of a wheelchair accessible vehicle that -
- (a) complies with the vehicle standards and requirements specified in Schedules 2 and 4, and
  - (b) has not reached the sixth anniversary of the date of first registration of the vehicle.
- (10) The holder of a licence that has been continued in force under paragraph (9), may subsequently make an application for the continuance in force of such licence in respect of a vehicle complying with the vehicle standards and requirements specified in Schedule 2.

### **Reactivation of expired licence**

17. (1) Except where -
- (a) a small public service vehicle licence has been surrendered or revoked, or
  - (b) in the case of a local area hackney licence, a period of three years has elapsed since the initial grant of such licence,
- the holder of a small public service vehicle licence that has expired may, subject to this Regulation, apply to the Authority for the reactivation of the expired licence in respect of the same vehicle or a different vehicle provided that such application shall be accompanied by the relevant fee specified in Schedule 1.
- (2) The Authority may approve an application under paragraph (1) provided that -
- (a) the application is made to the Authority on or before the date falling twelve months after the date of expiry of the licence, and
  - (b) following an assessment of the vehicle by or on behalf of the Authority, the Authority is satisfied that the vehicle meets the requirements applicable to the relevant vehicle licence category under Part 4 of these Regulations, provided that where the Authority has determined that a specific vehicle type or model does not comply with the requirements applicable to such vehicle licence category under Part 4 of these Regulations, the Authority may refuse to reactivate the licence without an assessment of the specific vehicle.

### **Death of licence holder**

18. (1) The Authority may approve an application under section 15 of the Principal Act by a nominated representative to continue to operate a small public service vehicle licence where -
- (a) the nominated representative provides -
    - (i) evidence, in form and substance satisfactory to the Authority, that a test certificate has been issued no more than 90 days prior to the date

of the application in respect of the vehicle the subject of the application,

- (ii) a valid tax clearance certificate has been issued in respect of the nominated representative under section 1095 (inserted by section 127 of the Finance Act 2002) of the Taxes Consolidation Act 1997, and
  - (iii) evidence, in form and substance satisfactory to the Authority, that the vehicle the subject of the application is covered by insurance provided by a vehicle insurer (within the meaning of section 58 of the Act of 1961) in respect of passengers carried for reward in such vehicle,
- (b) the application is accompanied by the relevant fee specified in Schedule 1,
  - (c) the application is made within the time period specified in section 15 of the Principal Act,
  - (d) in the case of a modified vehicle, the application is accompanied by evidence, in form and substance satisfactory to the Authority, that the vehicle to which the application relates complies with the requirements of Regulation 29,
  - (e) in the case of an application for a wheelchair accessible taxi licence or wheelchair accessible hackney licence, the following information –
    - (i) the names of any persons, including the licence holder, proposed to drive or use the vehicle to carry passengers for reward,
    - (ii) all contact details available for the purposes of making a booking in respect of the vehicle,
    - (iii) the areas of the State in which the licence holder proposes to drive or use the vehicle to carry passengers for reward, and
    - (iv) the days and times during which the licence holder proposes to make the vehicle available to carry passengers for reward, and
  - (f) following an assessment of the vehicle by or on behalf of the Authority, the Authority is satisfied that the vehicle meets the requirements applicable to the relevant vehicle licence category under Part 4 of these Regulations, provided that where the Authority has determined that a specific vehicle type or model does not comply with the requirements applicable to such vehicle licence category under Part 4 of these Regulations, the Authority may refuse to grant the licence without an assessment of the specific vehicle.

#### **Form of vehicle licence certificate**

19. A small public service vehicle licence issued in respect of a vehicle under these Regulations shall state -
- (a) the date on which the licence was granted to such vehicle
  - (b) the expiry date of the licence,
  - (c) the name and address of the licence holder,

- (d) the licence number,
- (e) the maximum number of passengers that the vehicle is licensed to carry for reward,
- (f) the registration number of the vehicle that is associated with the licence, and
- (g) the vehicle make, model, colour and engine capacity.

#### **Surrender of licence**

20. (1) The holder of a small public service vehicle licence may at any time surrender the licence to the Authority.
- (2) Upon the surrender of a small public service vehicle licence under paragraph (1), the licence shall be deemed to have permanently expired and shall not be renewed under Regulation 14 or reactivated under Regulation 17.

#### **Insurance**

21. (1) The holder of a small public service vehicle licence shall maintain in force for the duration of the licence a policy of insurance provided by a vehicle insurer (within the meaning of section 58 of the Act of 1961) in respect of the carriage of passengers for reward in the vehicle.
- (2) Subject to paragraph (3), the insurance policy referred to in paragraph (1) shall be held-
- (a) in the name of the holder of the small public service vehicle licence to which the insurance policy relates; or
  - (b) jointly between more than one party where one party is the holder of the small public service vehicle licence to which the insurance policy relates.
- (3) Where the insurance policy referred to in paragraph (1) is not held in accordance with paragraph (2), the holder of the small public service vehicle licence shall provide written confirmation to the Authority from the relevant insurance company or broker acting for such insurance company that the insurance company is aware that the holder of the insurance policy is not the person who is the registered owner of the vehicle or is otherwise legally entitled to the use and possession of the vehicle.

#### **Local area hackney licence**

22. (1) The Authority may grant a new local area hackney licence or renew a local area hackney licence only where the Authority is satisfied that -
- (a) the public transport needs of the area in respect of which the licence is sought are not being adequately met by existing public transport services or small public transport service licensed by the Authority, and
  - (b) in order to meet the public transport needs of such area, there is a need for the provision of the public transport service to be the subject of a local area hackney licence.
- (2) In considering whether to grant a new local area hackney licence, the Authority shall have regard to -

- (a) the public transport needs of the area in respect of which the licence is sought,
  - (b) any existing public transport services or services operated by small public service vehicles licensed by the Authority in the area in respect of which the licence is sought and the potential impact of a local area hackney service on such existing services,
  - (c) any other proposals for public transport services in the area in respect of which the licence is sought,
  - (d) any transport demand analysis that may be undertaken by or on behalf of the Authority or otherwise, and
  - (e) such other information as the Authority considers relevant.
- (3) A local area hackney licence shall only be granted by the Authority where -
- (a) the applicant provides -
    - (i) evidence that the appropriate fee specified in Schedule 1 has been paid to the Authority,
    - (ii) except in the case of an application for renewal of the licence, confirmation in writing from -
      - (A) from an established organisation representing local businesses in the area, or
      - (B) from a community group concerned for social and welfare needs of one or more communities, which has been granted an exemption from income tax under section 207 of the Taxes Consolidation Act 1997, by the Revenue Commissioners,
 of the need for such local area hackney service in the proposed area,
    - (iii) except in the case of an application for renewal of the licence, an analysis, in form and substance satisfactory to the Authority, of the need for such local area hackney service in the proposed area carried out by or on behalf of the local authority in whose administrative area the local area hackney service is proposed to be provided and written confirmation from that local authority that there is a need for such local area hackney service in the proposed area,
    - (iv) evidence, in form and substance satisfactory to the Authority, that a test certificate has been issued not more than 90 days prior to the date of the application in respect of the vehicle the subject of the application,
    - (v) a valid tax clearance certificate for the time being in force in respect of the applicant under section 1095 (inserted by section 127 of the Finance Act 2002) of the Taxes Consolidation Act 1997,
    - (vi) evidence, in form and substance satisfactory to the Authority, that the vehicle the subject of the application is covered by insurance provided

by a vehicle insurer (within the meaning of section 58 of the Act of 1961) in respect of passengers carried for reward in such vehicle,

- (vii) evidence, in form and substance satisfactory to the Authority, that the applicant is -
    - (A) the registered owner of the vehicle the subject of the application, or
    - (B) legally entitled to the use and possession of the vehicle the subject of the application for a period of not less than 12 months from the date of the application,
  - (b) in the case of a modified vehicle, the application is accompanied by evidence, in form and substance satisfactory to the Authority, that the vehicle to which the application relates complies with the requirements of Regulation 29, and
  - (c) following an assessment of the vehicle by or on behalf of the Authority, the Authority is satisfied that the vehicle meets the requirements applicable to the relevant vehicle licence category under Part 4 of these Regulations, provided that where the Authority has determined that a specific vehicle type or model does not comply with the requirements applicable to such vehicle licence category under Part 4 of these Regulations, the Authority may refuse to grant the licence without an assessment of the specific vehicle.
- (4) The holder of a local area hackney licence shall -
- (a) ensure that the vehicle associated with such licence is available for hire as a local area hackney in the area in respect of which the licence is granted,
  - (b) not, during the term of such licence, hold, or apply for the grant of, a small public service vehicle licence in respect of any vehicle other than the vehicle referred to in sub-paragraph (a),
  - (c) not provide, or advertise the provision of, services for the carriage of passengers for reward outside of the local area in respect of which the licence has been granted.
- (5) A local area hackney licence granted or renewed by the Authority shall specify the area in respect of which such licence has been granted.

#### **Exemption from requirement to hold a small public service vehicle licence**

23. (1) A person is not required to hold a small public service vehicle licence where such vehicle is being operated as part of a non-commercial personal vehicle sharing service and no payments are made in respect of such service other than payment to the driver of an amount not exceeding the reasonable cost of the fuel consumed in providing such service.
- (2) The holder of a licence in respect of a small public service vehicle shall not permit such vehicle to participate in a personal vehicle sharing programme.
- (3) A person is not required to hold a small public service vehicle licence where such vehicle is being driven by an employee of that person and the vehicle is solely for the carriage of the person who has ownership or possession of the vehicle.

  - (b) any substance which is carried in containers so designed and constructed or which is so packed that in the event of an accident it is unlikely to cause damage or injury to the vehicle or to persons carried therein, or
  - (c) a firearm carried by a member of the Defence Forces or of the Garda Síochána.

### Tamper-proof disc

44. (1) Subject to paragraph (2), a person shall not operate or purport to operate a small public service vehicle unless a valid tamper-proof disc is affixed, in such form and manner as the Authority may determine, to each of the front and rear windows of the vehicle.
- (2) In the case of a limousine, the Authority may waive the requirement to have a valid tamper-proof disc affixed to the rear window of the vehicle.
- (3) Subject to section 17 of the Principal Act, a person shall not, without the prior consent of the Authority, remove or attempt to remove, damage or otherwise interfere with a

tamper-proof disc affixed to a small public service vehicle in accordance with this Regulation.

- (4) A tamper-proof disc issued by the Authority shall at all times remain the property of the Authority.

#### **In-vehicle information**

45. (1) The driver of a small public service vehicle shall display such in-vehicle information in such form and manner as the Authority may specify.
- (2) Without prejudice to the generality of paragraph (1), the driver of a small public service vehicle shall display in-vehicle information as the Authority may specify relating to the rights and obligations of consumers relevant to the class of small public service vehicle concerned.
- (3) A person shall not, without the prior consent of the Authority, remove or attempt to remove, damage or otherwise interfere with any in-vehicle information displayed in a small public service vehicle.

#### **Taxi roof sign**

46. (1) Where a taxi is being driven or used for the carriage, or for the intended carriage, of passengers for reward, a taxi roof sign shall be affixed to the vehicle in accordance with paragraph 19 of Schedule 2.
- (2) A taxi roof sign referred to in paragraph (1) shall -
  - (a) where the vehicle is standing or plying for hire, be illuminated by means of the internal electric light installation, and
  - (b) where the vehicle has been hired by a passenger or intending passenger, not be illuminated.
- (3) Where a passenger or intending passenger has given his or her prior consent and the journey is likely to exceed 30 kilometres, the taxi roof sign may be positioned longitudinally on the roof of the vehicle.
- (4) A person shall not affix a taxi roof sign to a vehicle being driven or used in a public place unless the vehicle is a taxi being driven or used for the carriage, or for the intended carriage, of passengers for reward.

#### **Driver identification**

47. (1) Where a small public service vehicle is being driven or used for the carriage of passengers for reward or, in the case of a taxi, when standing or plying for hire, the driver of the vehicle shall display his or her SPSV Driver Display Card in a prominent place on the dashboard such that it is clearly visible to passengers in the rear of the vehicle and to persons standing in front of the vehicle.
- (2) The SPSV Driver Display Card referred to in paragraph (1) shall contain the following information -
  - (a) the name of the driver,

- (b) a photograph of the driver,
- (c) the licence number of the driver's licence to drive small public service vehicles,
- (d) the expiry date of the driver's licence to drive small public service vehicles,
- (e) on the side of the card facing the front of the vehicle, the area or areas in respect of which the driver is authorised to stand or ply for hire,
- (f) such security features as may be determined by the Authority, and
- (g) such other relevant information as the Authority may from time to time determine.

### **Prohibition on advertising**

48. (1) A person shall not display, or permit the display of, any sign or advertisement on the exterior, or on the interior such that it is visible from the exterior of the vehicle, of a hackney or limousine unless such sign or advertisement has been approved in writing by the Authority.
- (2) The holder of a small public service vehicle licence shall not permit the use of any electronic advertising sign in or on the vehicle associated with the licence such that it is visible from the exterior of the vehicle unless such sign has been approved in writing by the Authority.
- (3) A person shall not display, or permit the display of, any sign, symbol or advertisement in or on a small public service vehicle that contains threatening, discriminatory, obscene or offensive words or images.
- (4) The holder of a taxi licence shall not display, or permit the display of, any sign or advertisement on the front doors of the vehicle associated with the licence other than the signage specified in Schedule 6.
- (5) The holder of a taxi licence shall not display, or permit the display of, any sign or advertisement on the side doors (other than the front doors) of the vehicle associated with the licence –
- (a) where the sign or advertisement is greater than 1,600 square centimetres in area, or
  - (b) where, in the case of more than one sign or advertisement on a door, the combined area of such signs or advertisements is greater than 1,600 square centimetres in area.
- (6) The holder of a small public service vehicle licence shall not display, or permit the display of, any sign or advertisement on the exterior of the vehicle, or on the interior such that it is visible from the exterior of the vehicle, in relation to payment by credit or debit cards other than the sign set out in paragraph 19(k) of Schedule 2.
- (7) The holder of a small public service vehicle licence shall not display, or permit the display of, on the exterior of the vehicle, or on the interior such that it is visible from the exterior of the vehicle, signs providing names, details or logos of industry representative groups.

### **Operation of small public service vehicle by another person**

49. The holder of a small public service vehicle licence shall not allow a person to operate the vehicle to which such licence relates for the carriage of passengers for reward unless the licence holder -
- (a) is satisfied that the proposed driver holds a licence to drive small public service vehicles,
  - (b) provides, and maintains, insurance provided by a vehicle insurer (within the meaning of section 58 of the Act of 1961) in respect of passengers carried for reward by the proposed driver in such vehicle,
  - (c) keeps a written record of -
    - (i) the name and address of any persons who drive the vehicle for the carriage of passengers for reward,
    - (ii) the periods of use of the vehicle by any persons referred to in sub-paragraph (c)(i), and
    - (iii) the details of the small public service vehicle driver licence of any persons referred to in sub-paragraph (c)(i), including the licence numbers and expiry dates thereof, and
  - (d) promptly makes available to the Authority, at the request of the Authority, the records referred to in sub-paragraph (c) or copies thereof.

### **Rental or lease of small public service vehicle to another person**

50. The holder of a small public service vehicle licence shall not enter into any rental, leasing or similar arrangement in respect of the driving or use of the vehicle for the carriage of passengers for reward by another person unless the licence holder -
- (a) is satisfied that the proposed driver holds a licence to drive small public service vehicles,
  - (b) provides, and maintains, during the period of such rental, leasing or similar arrangement insurance provided by a vehicle insurer (within the meaning of section 58 of the Act of 1961) in respect of passengers carried for reward by the proposed driver in such vehicle,

- (h) at the request of the Authority, promptly provides a copy of the records referred to in sub-paragraph (g) and any written agreement evidencing the rental, leasing or similar arrangement.

**Notification of driving of a small public service vehicle**

- 51.
- (1) Subject to paragraphs (2) and (3), the holder of a licence to drive small public service vehicles shall not drive a vehicle as a small public service vehicle unless, prior to driving such vehicle, he or she notifies the Authority of the proposed driving of such vehicle.
  - (2) A notification under paragraph (1) shall be accompanied by such information as the Authority may determine in relation to the vehicle including, without limitation, identification details of the vehicle and the proposed period of operation of the vehicle.
  - (3) A notification made by a licence holder under paragraph (1) in respect of a vehicle shall expire, and shall no longer be valid in respect of such vehicle, upon the licence holder making a subsequent notification to the Authority in relation to a different vehicle.
  - (4) A person shall not knowingly make a false or misleading notification under this Regulation.

## PART 8 - COMMENCEMENT OF HIRE AND PAYMENT OF FARES

### Commencement of hire and standing for hire

52. (1) Subject to paragraph (2), the hiring of a small public service vehicle shall be deemed to commence at the time the driver agrees to accept the hire.
- (2) The hiring of a pre-booked small public service vehicle shall commence at the time and place agreed with the person who pre-booked the vehicle.

### Taximeter

53. (1) Taxis shall be fitted with a taximeter complying with the requirements of paragraph 20 of Schedule 2.
- (2) A person shall not drive or operate a taxi for the carriage of persons for reward unless –
- (a) a taximeter is fitted to the vehicle in accordance with paragraph (1),
  - (b) the taximeter so fitted to the vehicle has been calibrated in accordance with Regulation 54, and
  - (c) when carrying a person for reward, the taximeter so fitted to the vehicle is engaged and is recording and calculating the fare in respect of the journey.
- (3) The driver of a taxi shall not cause or permit the taximeter fitted to such vehicle to be engaged while the vehicle is standing or plying for hire.
- (4) Except where there is a prior written agreement between the driver or operator of a taxi and the passenger confirming –
- (a) the charge for the pre-booked service, and
  - (b) that the passenger waives his or her right to have the fare calculated using the taximeter,
- all fares in respect of journeys undertaken by a taxi shall be calculated using a taximeter fitted and calibrated in accordance with these Regulations. Where there is such a prior written agreement the driver shall charge the passenger the lesser of the pre-agreed charge or the charge calculated on the taximeter fitted, calibrated and engaged in accordance with paragraph (2) above.
- (5) The driver or operator of a taxi and any dispatch operator in respect of which the taxi is affiliated –
- (a) shall not impose a minimum fare value as a condition of payment of the taxi fare by credit card or debit card, and
  - (b) shall, if requested by the passenger or intending passenger, accept payment in cash in respect of such taxi fare.

### **Calibration of taximeters to reflect maximum fares order**

54. Where a maximum fares order is made by the Authority, the holder of a taxi licence shall, within 21 days of the date on which the maximum fares order comes into operation, ensure that his or her taximeter is calibrated in accordance with such maximum fares order.

### **Booking fee**

55. A booking fee shall not be charged in respect of a journey by taxi unless the vehicle is pre-booked by, or on behalf of, the intending passenger and shall not be charged where the taxi is engaged -
- (a) while plying for hire or standing for hire, or
  - (b) without having been booked in advance by the consumer, at any location including an airport or other transport station or terminal.

### **Taxi receipts**

56. (1) Where a maximum fares order is made by the Authority, the driver of a taxi shall, upon completion of the journey, print and offer a receipt to the passenger in accordance with paragraph (2). Such receipt shall be printed by a printer directly connected to the taximeter.
- (2) A receipt referred to in paragraph (1) shall contain at least the following information -
- (a) the total fare payable in respect of the hire,
  - (b) an itemised breakdown of any extra charges lawfully payable,
  - (c) the date, starting time and finishing time of the hire,
  - (d) the total distance travelled in kilometres (stated to at least one decimal place),
  - (e) the small public service vehicle licence number of the vehicle,
  - (f) the unique identification mark (registration number) of the vehicle,
  - (g) the receipt number (in sequential order),
  - (h) a reasonable space headed "Tips/Discounts/Tolls", and
  - (i) such other information as may be determined by the Authority.

### **Hackney and limousine receipts**

57. (1) Except where -
- (a) a passenger avails of a pre-existing payment account, or
  - (b) a limousine is hired as part of a wedding or funeral service,
- the driver of a hackney or limousine shall, upon completion of the journey, make available a receipt to the passenger in accordance with paragraph (2).
- (2) A receipt referred to in paragraph (1) shall contain at least the following information -

- (a) the receipt number,
- (b) the unique identification mark (registration number) of the vehicle,
- (c) the small public service vehicle licence number of the vehicle,
- (d) the date,
- (e) the amount charged in respect of the journey, and
- (f) such other information as may be determined by the Authority.

#### **Area knowledge**

58. (1) A driver of a taxi shall not ply for hire other than in an area in which he or she is licensed to stand or ply for hire in accordance with a licence granted under Part 2 of these Regulations.
- (2) It is a condition of a licence to drive a small public service vehicle that the holder of such licence to drive a small public service vehicle has adequate knowledge of the area in which he or she is licensed to stand or ply for hire.
- (3) If requested by the Authority, the holder of a licence to drive a small public service vehicle shall provide evidence, in form and substance satisfactory to the Authority, that he or she has adequate knowledge of the area in which he or she is licensed to stand or ply for hire.

#### **Hire of hackney or limousine**

59. (1) Except where a limousine is hired as part of a wedding or funeral service, the driver of a hackney or limousine shall in respect of each hire carry a booking record in the vehicle during the period of such hire and during the journey to the point of commencement of the hire which sets out –
- (a) the points of commencement and completion of the hire,
  - (b) the name of the person who hired the vehicle,
  - (c) the contact details of the person referred to in sub-paragraph (b), and
  - (d) the fare agreed for the hire.
- (2) The booking record referred to in paragraph (1) shall be made available for inspection by the person who hired the vehicle on request.

## PART 9 – LICENSING OF DISPATCH OPERATORS

### Requirement for dispatch operators to be licensed

60. A person shall not operate as a dispatch operator or provide a booking service in respect of small public service vehicles, other than limousines, unless such person holds a dispatch operator licence granted by the Authority under Regulation 61.

### Grant of dispatch operator licence

61. The Authority may grant a licence to a person to act as a dispatch operator or to provide booking services in respect of small public service vehicles, provided that -
- (a) produces a valid tax clearance certificate for the time being in force in respect of the applicant under section 1095 (inserted by section 127 of the Finance Act 2002) of the Taxes Consolidation Act 1997,
  - (b) provides to the Authority the contact information used for the purposes of making or receiving bookings in relation to drivers affiliated with the dispatch operator or person providing the booking services including details of any trading name being used or proposed to be used by the applicant, and
  - (c) pays to the Authority the appropriate fee specified in Schedule 1.

### Period of validity of dispatch operator licence

62. A dispatch operator licence granted by the Authority shall remain in force until the earlier of -
- (a) the expiry of a period of twelve months from the date of its grant or renewal under Regulation 61,
  - (b) the surrender of the licence by the licence holder, and
  - (c) the revocation of the licence under the Principal Act.

### Obligations of dispatch operators

63. (1) A dispatch operator or provider of a booking service shall only provide bookings to a driver where -
- (a) the driver holds a licence to drive small public service vehicles, and
  - (b) there is a small public service vehicle licence in force in respect of the vehicle to be used by the driver to provide the services.
- (2) A dispatch operator or provider of a booking service shall maintain a complete and up-to-date list of all vehicles and driver licences in respect of which he or she is providing a booking service and shall make such list available to the Authority promptly upon request.
- (3) A person shall not promote, offer or advertise, or procure the promotion, offer or advertising of, a service for the booking of a small public service vehicle for hire unless such person holds a dispatch operator licence.

- (4) A dispatch operator or provider of a booking service shall put in place a consumer complaints procedure to effectively address any complaints received from users of the booking service and shall provide details of such procedure available to the Authority promptly upon request.
- (5) A dispatch operator or provider of a booking service shall put in place a record management procedure in relation to any bookings and complaints received and shall make such records available to the Authority promptly upon request.
- (6) A dispatch operator or provider of a booking service shall notify the Authority of any change of name or address associated with his or her dispatch operator licence, including a change to any trading name used in relation to the services, within fourteen days of such change.

### General Vehicle Requirements for Taxis

#### Vehicle Weight and General Characteristics

1. The vehicle shall be a mechanically propelled vehicle which is designed and constructed for the carriage of passengers with passenger seating accommodation for no more than eight persons (exclusive of the driver) and a maximum design gross vehicle weight not exceeding 3,500 kilogrammes.

#### Wheel Arrangement

2. The vehicle shall have at least four wheels arranged in axle pairs such that the minimum wheelbase is 2,100 millimetres, the minimum track width is 1,100 millimetres and any side to side variation in wheelbase is less than 75 millimetres.

#### Tyre Load Rating

3. The tyres shall have a load rating appropriate for the design gross vehicle weight.

#### Doors

4. (1) The vehicle shall have a minimum of four doors.  
(2) All doors shall be operable from inside or outside the vehicle by a passenger provided that a door may be automatically locked while the vehicle is in motion subject to it automatically unlocking once the vehicle becomes stationary.

#### Bull Bars

5. No bull bars shall be fitted to the vehicle, except where they are compliant with Regulation 78/2009/EC as amended and evidence of that compliance, in form and substance satisfactory to the Authority, has been provided.

#### Windows

6. (1) All passenger (side) windows shall be readily operable.  
(2) The windows shall be in a clean condition.  
(3) Except for a band of a maximum of 125 millimetres in depth at the top upper edge, the front windscreen of a small public service vehicle shall exhibit 70 per cent minimum visible light transmission.  
(4) Subject to (5) below, where a passenger seating position or a wheelchair space is adjacent to a window (other than the front windscreen and the rear windscreen of such vehicle), such window shall exhibit 70 per cent minimum visible light transmission.  
(5) The requirements in (4) above shall not apply in respect of a vehicle associated to a taxi licence first granted before 8 June 2010 where the vehicle was associated with such licence on 1 January 2013.

### **Cleanliness**

7. The vehicle shall be in a good and clean condition and its interior shall be free of dust, dirt, grime, refuse, litter, objectionable matter or unpleasant smell.

### **Seating Quality**

8. The vehicle shall be fitted with seats which are properly upholstered with leather, good quality artificial leather or other durable material, and which are in a clean and hygienic condition.

### **Exterior Paint**

9. The exterior paint of the vehicle shall exhibit good colour consistency without paint or bodywork repairs in progress.

### **Luggage Area**

10. Any area within the vehicle which is provided for luggage shall be available for passenger luggage and shall not contain any other unsecured items or be dirty or damp.

### **Passenger Compartment Temperature**

11. Other than where a vehicle is associated with a taxi licence first granted before 8 June 2010, and was associated to that licence on 1 January 2013, the vehicle shall be capable of maintaining a passenger compartment temperature of 20 degrees centigrade during an external ambient temperature of minus 5 degrees centigrade.

### **Safety Equipment and Communications**

12. (1) The vehicle shall safely carry the following articles -
  - (a) subject to paragraph (2) a spare wheel system,
  - (b) a first-aid kit, being a within date first aid kit complying with DIN (Deutsches Institut für Normung) 13164 or comparable travel kit recommended by the Health and Safety Authority,
  - (c) a fire extinguisher, meaning a fire extinguisher in serviceable condition complying with EN3 and suitable for inflammability classes A, B and C, with a minimum capacity of 2 kilogrammes of dry powder or an equivalent capacity for any other suitable extinguishing agent,
  - (d) a reflective advance warning triangle to standard ECE Regulation 27,
  - (e) a high visibility reflective safety vest to standard ANSI 107, BS EN 471 or CEN 471 or equivalent,
  - (f) a working handheld torch, and
  - (g) a pen and paper.
- (2) The Authority may reduce the requirements of paragraph (1)(a) where the vehicle concerned is a series production electric vehicle, a series production hybrid electric vehicle, a series production flexible fuel vehicle or a series production plug-in hybrid

electric vehicle, or a vehicle adapted for liquefied petroleum gas or compressed natural gas.

#### **Interior Lighting**

13. The standard fitment interior lighting of the vehicle shall be in operational condition.

#### **Side Facing Seats**

14. No side-facing seat shall be fitted in the vehicle.

#### **Vehicle Roof**

15. The vehicle shall have a permanent, rigid roof (which may contain a properly fitted sunroof) covering the driver and passenger compartments.

#### **Luggage Capacity**

16. (1) Subject to paragraphs (2) and (3) below, the vehicle shall comply with the following requirements -
- (a) the vehicle shall have accommodation for safely transporting luggage of minimum total volume of 420 litres, as measured by the VDA method when all passenger seats are in compliance with paragraph 18 of this Schedule 2,
  - (b) a guard or cover shall be fitted to any luggage compartment referred to in paragraph (a) capable of preventing luggage from causing injury to any passenger in the event of an accident, and
  - (c) a space consisting of the minimum box dimensions 735 millimetres x 330 millimetres x 805 millimetres shall be provided within the luggage volume specified at paragraph (a) to accommodate a folded wheelchair.
- (2) Where a vehicle is associated with a standard taxi licence first granted before 1 January 2009, or a wheelchair accessible taxi licence first granted before 8 June 2010, and was associated to that licence on 1 January 2013, such vehicle shall have provision for a reasonable quantity of luggage relative to the number of seating positions.
- (3) The Authority may reduce the requirements of paragraph (1)(a) where the vehicle concerned is a series production electric vehicle, a series production hybrid electric vehicle, a series production flexible fuel vehicle or a series production plug-in hybrid electric vehicle, or a vehicle adapted for liquefied petroleum gas or compressed natural gas.

#### **Passenger Seats General Requirements**

17. Each passenger seat in a vehicle (other than the seat of a wheelchair) shall -
- (a) have a minimum squab width of 400 millimetres, and
  - (b) shall be firmly and securely fixed in the vehicle when in a position for passenger occupation.

### **Passenger Seats / Space**

18. Except where a vehicle is associated with a taxi licence first granted before 8 June 2010, and was associated with that licence on 1 January 2013, the vehicle shall comply with the following requirements –
- (a) the top of any uncompressed front passenger seat squab shall be at least 275 millimetres from the floor of the vehicle,
  - (b) the top of any uncompressed passenger seat squab other than a front passenger seat squab shall be at least 275 millimetres and not more than 460 millimetres from the vehicle floor at the front of the squab,
  - (c) there shall be at least 650 millimetres measured longitudinally and horizontally from the front face of the backrest at uncompressed squab height to the rear face of the seat or the surface immediately in front of the seat,
  - (d) where seats face each other, there shall be at least 1300 millimetres measured longitudinally and horizontally between the front faces of the opposing backrests at uncompressed squab height, and
  - (e) the shoulder room of at least one row of rear seats shall be a minimum of 1,360 millimetres.

### **Taxi Roof Sign**

19. Each taxi shall have mounted on its roof at all times while operating as a small public service vehicle a sign (a "taxi roof sign") complying with the following requirements -
- (a) the taxi roof sign shall be constructed of a durable material, be weatherproof and capable of being securely mounted on the roof of the vehicle so that it is not subject to vibration likely to damage the electric light installation required to be part of its construction,
  - (b) the dimensions of the taxi roof sign shall be such that the surface of the taxi roof sign which is capable of being illuminated shall not be more than 120 millimetres and not less than 110 millimetres in height and not less than 1,030 millimetres and not more than 1,120 millimetres in length,
  - (c) the front and rear faces of the taxi roof sign shall each be divided into three sections,
  - (d) the central sections on each face of the taxi roof sign shall be no less than 300 millimetres and no more than 360 millimetres in width and shall display the word "TAXI" or, in the Irish language, "TACSAI" in yellow letters on a dark blue background of low light transmittance. Each letter shall be no less than 80 millimetres and no more than 90 millimetres in height and no less than 14 millimetres and no more than 16 millimetres in stroke width,
  - (e) the sections of the taxi roof sign on the left of the sign as viewed from the rear of the vehicle and on the right of the sign as viewed from the front shall have a yellow background and shall be no less than 360 millimetres and no more than 425 millimetres in width and shall display on that background in black letters or numerals, as the case may be, -

- (i) the licence number, each numeral of which shall be no less than 85 millimetres and no more than 90 millimetres in height; the strokes for each numeral shall be no less than 14 millimetres and no more than 16 millimetres broad; the total width of every numeral except the numeral "1" shall be no less than 45 millimetres and no more than 60 millimetres and the spacing between the nearest parts of adjoining numerals shall be approximately 7 millimetres, and
  - (ii) above the licence number or to the left hand side or to the right hand side of the licence number, the words "licence number" or, in the Irish language, "uimhir cheadunais",
- (f) no letter or numeral displayed on the remaining sections of each face of the taxi roof sign shall exceed 70 millimetres in height,
  - (g) the taxi sign shall be capable of being lit by means of an internal electric light installation to enable the licence number to be readily identifiable,
  - (h) when lit, the taxi roof sign shall not show a red light to the front or a white light to the rear,
  - (i) when lit, the taxi roof sign shall emit a diffused light and shall be designed to emit a light of a brightness not exceeding 400 candela per square metre of the illuminated area of the sign,
  - (j) the panel on the right of the taxi roof sign as viewed from the rear of the vehicle and on the left of the taxi roof sign as viewed from the front of the vehicle shall contain only –
    - (i) the county identification(s) for those areas in which the driver of that vehicle, has been authorised as having appropriate area knowledge to stand or ply for hire, which identification(s) shall comprise such content and security features and be of such dimensions as are determined by the Authority,
    - (ii)
    - (iii) contact details –
      - (A) in relation to the taxi, or
      - (B) in relation to the dispatch operator or the booking service through which the taxi may be booked or arranged,
    - (iv) where the vehicle is a wheelchair accessible taxi, the following symbol or a substantially similar symbol, which symbol shall be approximately 90mm in height -

- (v) where the driver accepts payment by credit or debit card, a sign approximately 90mm x 90mm in size of the design below, in the colours blue (Pantone reference 534) and green (Pantone reference 382) as indicated may be displayed,

- (k) the colour of any blank sections of the panel on the right of the taxi roof sign as viewed from the rear of the vehicle or on the left of the taxi roof sign as viewed from the front of the vehicle shall be yellow,
- (l) a taxi sign shall at no time be so defaced, obscured or altered in such a manner that the word "TAXI" or "TACSAÍ" or the licence number is rendered illegible or partly illegible,
- (m) the taxi sign light shall be capable of being switched on when the vehicle is available for hire and shall accordingly be wired independently of the ignition or the vehicle light switch,
- (n) no protrusions shall be placed on the vehicle roof which would or could obscure any part of the taxi roof sign when viewed from the front or the rear of the vehicle,
- (o) no advertising, symbols, text, lights or other equipment shall be placed on or attached to the taxi roof sign or the roof of the vehicle other than that specified in this Schedule 2, and
- (p) the taxi roof sign shall be capable of being easily removed from the vehicle.

### **Taximeter and Printer**

20. The vehicle shall be fitted with a taximeter in a manner such that it is -

- (a) securely attached to the vehicle so that the taximeter cannot be detached or caused to become inaccurate by the vibration of the engine or by the motion of the vehicle,
- (b) in such position on the vehicle as to enable a passenger inside the vehicle to easily see and read the taximeter,
- (c) have the transmitter cable connecting the taximeter with the wheels or the driving mechanism of the vehicle so situated and so protected by an outer cover as to render damage to the cable unlikely,
- (d) calibrated in accordance with the maximum fares order made by the Authority under section 24 of the Principal Act,
- (e) fitted with a device capable of printing automatically a receipt showing the details required in accordance with Regulation 56, and

- (f) be in good order, repair and condition, and fitted where required to be so fitted, with the official verification mark/seals signifying conformity with the Metrology Act, 1996 (No. 27 of 1996).

### **Vehicle Branding**

- 21. (1) A vinyl self-adhesive approved external sign in the form and colours specified in Part 1 or Part 2 of Schedule 6 shall be affixed to the front door on the left side and the front door on the right side of the vehicle. Such signs shall -
  - (a) be affixed by a supplier authorised by the Authority;
  - (b) be affixed in a semi-permanent manner that is not capable of being removed in the ordinary course;
  - (c) be complete, in good condition and free from any significant blemish;
- (2) An approved external sign affixed to a taxi by an authorised supplier in accordance with paragraph (1) shall prior to being affixed to the vehicle, be customised by such authorised supplier by inserting the taxi licence number of the vehicle in the space marked "XXXXX" in the form of approved external sign specified in Part 1 or Part 2 of Schedule 6, as the case may be.
- (3) It is not permissible to affix magnetic signs of the form specified in Schedule 6, or resembling the form specified in Schedule 6, to the exterior doors of a vehicle.

### **Seat Structure Requirements**

- 22. (1) Subject to paragraph (2), the vehicle shall be fitted with safety belts, belt anchorages, seats, seat anchorages, seat mechanisms, and head restraints that comply with the technical provisions of the relevant passenger car (M1) EC/UNECE standards and documentary evidence of such compliance shall be available in respect of any vehicle modifications.
- (2) In respect of the renewal of a standard taxi licence relating to a vehicle associated with such licence on the date that these Regulations entered into force, the vehicle shall have safety belts, belt anchorages, seats, seat anchorages, seat mechanisms, and head restraints which comply with the relevant requirements of the Construction, Equipment and Use Regulations.

### **Modified Vehicles**

- 23. Documentation in accordance with Regulation 29 is required in respect of all modified vehicles.

## SCHEDULE 3

### General Vehicle Requirements for Hackneys

#### Vehicle Weight and General Characteristics

1. The vehicle shall be a mechanically propelled vehicle which is designed and constructed for the carriage of passengers with passenger seating accommodation for no more than eight persons (exclusive of the driver) and a maximum design gross vehicle weight not exceeding 3,500 kilogrammes.

#### Wheel Arrangement

2. The vehicle shall have at least four wheels arranged in axle pairs such that the minimum wheelbase is 2,100 millimetres, the minimum track width is 1,100 millimetres and any side to side variation in wheelbase is less than 75 millimetres.

#### Tyre Load Rating

3. The tyres shall have a load rating appropriate for the design gross vehicle weight.

#### Doors

4. (1) The vehicle shall have a minimum of four doors.  
(2) All doors shall be operable from inside or outside the vehicle by a passenger provided that a door may be automatically locked while the vehicle is in motion subject to it automatically unlocking once the vehicle becomes stationary.

#### Bull Bars

5. No bull bars shall be fitted to the vehicle, except where they are compliant with Regulation 78/2009/EC as amended and evidence of that compliance, in form and substance satisfactory to the Authority, has been provided.

#### Windows

6. (1) All passenger (side) windows shall be readily operable.  
(2) All windows shall be clean.  
(3) Except for a band of a maximum of 125 millimetres in depth at the top upper edge, the front windscreen of a small public service vehicle shall exhibit 70 per cent minimum visible light transmission.  
(4) Subject to (5) below, where a passenger seating position or a wheelchair space is adjacent to a window (other than the front windscreen and the rear windscreen of such vehicle), such window shall exhibit 70 per cent minimum visible light transmission.  
(5) The requirements in (4) above shall not apply in respect of a vehicle associated to a standard hackney licence first granted before 1 January 2009 where the vehicle was associated with such licence on 1 January 2013.

### **Cleanliness**

7. The vehicle shall be in a good and clean condition and its interior shall be free of dust, dirt, grime, refuse, litter, objectionable matter or unpleasant smell.

### **Seating Quality**

8. The vehicle shall be fitted with seats which are properly upholstered with leather, good quality artificial leather or other durable material, and which are in a clean and hygienic condition.

### **Exterior Paint**

9. The exterior paint of the vehicle shall exhibit good colour consistency without paint or bodywork repairs in progress.

### **Luggage Area**

10. Any area within the vehicle which is provided for luggage shall be available for passenger luggage and shall not contain any other unsecured items or be dirty or damp.

### **Passenger Compartment Temperature**

11. Except where a vehicle is associated with a hackney licence first granted before 1 January 2009, and where such vehicle was associated with such licence on 1 January 2013, the vehicle shall be capable of maintaining a passenger compartment temperature of 20 degrees centigrade during an external ambient temperature of minus 5 degrees centigrade.

### **Safety Equipment and Communications**

12. (1) The vehicle shall safely carry the following articles –
  - (a) subject to paragraph (2), a spare wheel system,
  - (b) a first-aid kit, being a within date first aid kit complying with DIN (Deutsches Institut für Normung) 13164 or comparable travel kit recommended by the Health and Safety Authority,
  - (c) a fire extinguisher, meaning a fire extinguisher in serviceable condition complying with EN3 and suitable for inflammability classes A, B and C, with a minimum capacity of 2 kilogrammes of dry powder or an equivalent capacity for any other suitable extinguishing agent,
  - (d) a reflective advance warning triangle to standard ECE Regulation 27,
  - (e) a high visibility reflective safety vest to standard ANSI 107, BS EN 471 or CEN 471 or equivalent,
  - (f) a working handheld torch, and
  - (g) a pen and paper.
- (2) The Authority may reduce the requirements of paragraph (a) where the vehicle concerned is a series production electric vehicle, a series production hybrid electric vehicle, a series production flexible fuel vehicle or a series production plug-in hybrid

electric vehicle, or a vehicle adapted for liquefied petroleum gas or compressed natural gas.

### **Interior Lighting**

13. The standard fitment interior lighting of the vehicle shall be in operational condition.

### **Side Facing Seats**

14. No side-facing seat shall be fitted in the vehicle.

### **Vehicle Roof**

15. The vehicle shall have a permanent, rigid roof (which may contain a properly fitted sunroof) covering the driver and passenger compartments.

### **Luggage Capacity**

16. (1) Subject to paragraphs (2) and (3) below, the vehicle shall comply with the following requirements -
- (a) the vehicle shall have accommodation for safely transporting luggage of minimum total volume of 420 litres, as measured by the VDA method provided that passenger seats in excess of four may be exempted from the requirements of paragraph 18 of this Schedule for the purpose of such measurement,
  - (b) a guard or cover shall be fitted to any luggage compartment referred to in paragraph (a) capable of preventing luggage from causing injury to any passenger in the event of an accident, and
  - (c) a space consisting of the minimum box dimensions 735 millimetres x 330 millimetres x 805 millimetres shall be provided within the luggage volume specified at paragraph (a) to accommodate a folded wheelchair.
- (2) Where a vehicle is associated with a standard hackney licence first granted before 1 January 2009, and was associated to that licence on 1 January 2013, such vehicle shall have provision for a reasonable quantity of luggage relative to the number of seating positions.
- (3) The Authority may reduce the requirements of paragraphs (a) where the vehicle concerned is a series production electric vehicle, a series production hybrid electric vehicle, a series production flexible fuel vehicle or a series production plug-in hybrid electric vehicle, or a vehicle adapted for liquefied petroleum gas or compressed natural gas.

### **Passenger Seats General Requirements**

17. Each passenger seat in a vehicle (other than the seat of a wheelchair) shall -
- (a) have a minimum squab width of 400 millimetres, and
  - (b) shall be firmly and securely fixed in the vehicle when in a position for passenger occupation.

### **Passenger Seats / Space**

18. Except where a vehicle is associated with a standard hackney licence first granted before 1 January 2009, and was associated with that licence on 1 January 2013, the vehicle shall comply with the following requirements –
- (a) the top of any uncompressed front passenger seat squab shall be at least 275 millimetres from the floor of the vehicle,
  - (b) the top of any uncompressed passenger seat squab other than a front passenger seat squab shall be at least 275 millimetres and not more than 460 millimetres from the vehicle floor at the front of the squab,
  - (c) there shall be at least 650 millimetres measured longitudinally and horizontally from the front face of the backrest at uncompressed squab height to the rear face of the seat or the surface immediately in front of the seat,
  - (d) where seats face each other, there shall be at least 1300 millimetres measured longitudinally and horizontally between the front faces of the opposing backrests at uncompressed squab height, and
  - (e) the shoulder room of at least one row of rear seats shall be a minimum of 1,360 millimetres.

### **Seat Structure Requirements**

19. (1) Subject to paragraph (2), the vehicle shall be fitted with safety belts, belt anchorages, seats, seat anchorages, seat mechanisms, and head restraints that comply with the technical provisions of the relevant passenger car (M1) EC/UNECE standards and documentary evidence of such compliance shall be available in respect of any vehicle modifications.
- (2) In respect of the renewal of a standard hackney licence relating to a vehicle associated with such licence on the date that these Regulations entered into force, the vehicle shall have safety belts, belt anchorages, seats, seat anchorages, seat mechanisms, and head restraints which comply with the relevant requirements of the Construction, Equipment and Use Regulations.

### **Modified Vehicles**

20. Documentation in accordance with Regulation 29 is required in respect of all modified vehicles.

## SCHEDULE 4

### Requirements for Wheelchair Accessible Taxis and Wheelchair Accessible Hackneys

#### Vehicle Specification

1. (1) The vehicle shall be constructed or converted specifically to accommodate at least one passenger in addition to an occupied wheelchair (equivalent in size to the space dimensions set out in paragraph 3(2) below) and a minimum of three adult passengers in a configuration where no occupied wheelchair is being transported.
- (2) In the case of a wheelchair accessible taxi, seats which are not in use in the configuration for the transport of an occupied wheelchair shall be capable of being folded or otherwise safely stowed in the vehicle.

#### Accessible Door Dimensions

2. The vehicle shall comply with the following requirements -
  - (a) The vehicle shall be fitted with—
    - (i) at least one wheelchair accessible door aperture capable of being opened from inside and outside the vehicle, located to the nearside or rear of the vehicle, affording unrestricted access to the wheelchair space within the vehicle and of minimum unobstructed dimensions of 745 millimetres in width and 1,250 millimetres in opening height, and
    - (ii) at least one other opening door that enables access from inside or outside to the passenger compartment,
  - (b) the rear doors (vertically hinged) or tailgate (horizontally hinged) may be reckoned as an aperture referred to at sub-paragraph (a)(i) if the vehicle concerned was designed for rear wheelchair entry and the doors otherwise meet the dimensions specified therein, and
  - (c) the rear doors (vertically hinged) or tailgate (horizontally hinged) may be reckoned as an access opening referred to at sub-paragraph (a) (ii).

#### Wheelchair Space Dimensions and Prohibitions

3. (1) The vehicle shall the vehicle shall have a space for the accommodation of one person to travel either forwards-facing or rearwards-facing seated in a wheelchair.
- (2) The wheelchair space in paragraph (1) shall be not less than 700 millimetres in width and 1,200 millimetres in length. Subject to paragraph (3), minimum headroom of 1,350 millimetres shall be provided in the vicinity of the wheelchair occupant's head.
- (3) Where a vehicle is associated with a wheelchair accessible taxi licence first granted on or before 8 June 2010 and was associated to that licence on 1 January 2013, minimum headroom of 1,300 millimetres shall be provided in the vicinity of the wheelchair occupant's head.

### **Seat Structural Requirements**

4. (1) Subject to paragraph (2), the vehicle shall be fitted with safety belts, belt anchorages, seats, seat anchorages, seat mechanisms, and head restraints that comply with the technical provisions of the relevant passenger car (M1) EC/UNECE standards and documentary evidence of such compliance shall be available in respect of any vehicle modifications.
- (2) In relation to a wheelchair accessible taxi licence first granted before 8 June 2010, and where the vehicle associated to the licence is the same vehicle as that which was associated to such licence on 1 January 2013, the vehicle shall have safety belts, belt anchorages, seats, seat anchorages, seat mechanisms, and head restraints that shall comply with the relevant requirements of the Construction, Equipment and Use Regulations.

### **Provision of Access Step**

5. (1) Where one or more doors on the nearside or the rear of a vehicle has an aperture height exceeding 1150mm and where the floor or lowest internal surface of the passenger compartment is more than 230 millimetres above the ground when the vehicle is at normal ride attitude, an intermediate step (an "access step") shall be securely affixed to at least one door aperture located to either the nearside or rear of the wheelchair accessible vehicle.
- (2) Where fitted, kneeling suspension may be lowered to reduce the normal ride attitude prior to any measurement of the passenger compartment floor height.

### **Access Step Requirements**

6. (1) An access step shall have a slip-resistant surface.
- (2) The tread depth of an access step shall be at least 200 millimetres and the width of the step shall be at least 400 millimetres.
- (3) The height of the surface of an access step shall be no more than 230 millimetres from the ground, when the vehicle is at normal ride attitude.
- (4) The maximum slope of an access step in any direction shall not exceed 3° when the vehicle is at normal ride attitude.
- (5) An access step shall have clearly marked rounded nosings of not less than 40 millimetres in a bright colour contrasting to the colour scheme of the general interior.
- (6) While a wheelchair accessible vehicle is in motion, an access step shall not project more than 10 millimetres beyond the widest part (excluding mirrors) of the vehicle exterior.
- (7) The corners or supporting structures of an access step facing forwards or rearwards shall be rounded to a radius of not less than 5 millimetres and the edges of an access step shall be rounded to a radius of not less than 2.5 millimetres.
- (8) Subject to paragraph (7), the edges of an access step shall be rounded to a radius of not less than 2.5 millimetres.

- (9) Protruding parts of an access step made from a material of hardness not exceeding 60 shore A may have a radius of curvature of less than 2.5 millimetres.
- (10) An access step that has been certified as part of the EC Whole Vehicle Type Approval vehicle specification is deemed to have complied with the requirements referred to in paragraphs (5) to (8).

#### **Access Step Integrity**

- 7. An access step shall be designed and constructed to withstand, without permanent deformation or deflection exceeding 10 millimetres, at any point on the access step, the following loads –
  - (a) in respect of an access step designed to take one person at a time, a mass of 136 kilogrammes placed in the centre of a single step, or
  - (b) in respect of an access step designed to accommodate more than one person at a time, a mass of 272 kilogrammes placed in the centre of a double step.

#### **Kneeling Suspension System Requirements**

- 8. Where a vehicle is fitted with a kneeling suspension system, such system shall comply with the following provisions -
  - (a) a master control and separate user control for the kneeling system function shall be required to enable operation of the system,
  - (b) any control which initiates the lowering or raising of any part or the whole of the body relative to the road surface shall be clearly identified and under the direct control of the driver or the wheelchair occupant or his or her assistant,
  - (c) the lowering process shall be capable of being stopped and immediately reversed by either the master control or the separate user control, and
  - (d) the kneeling system shall not allow the vehicle to be driven at a speed exceeding 5 kilometres per hour where the vehicle is at lower than normal ride attitude.

#### **Boarding Aid**

- 9. (1) Subject to paragraph (3) the vehicle shall comply with the following requirements -
  - (a) a vehicle shall be equipped with a wheelchair ramp or powered lift assembly to allow a person travelling in a wheelchair to enter or exit the vehicle safely,
  - (b) where the vehicle is equipped with a powered lift assembly, such powered lift assembly shall comply with the following provisions -
    - (i) be certified by a relevant competent entity as having a minimum safe working load of 300 kilogrammes, and
    - (ii) a lift platform of minimum area 725 millimetres wide x 900 millimetres long,
  - (c) where the vehicle is equipped with a wheelchair ramp, such ramp shall -

- (i) have a maximum permitted ramp angle of 16° relative to true level, (for side entry vehicles only this shall be assessed with the free end raised 125 millimetres from the ground),
  - (ii) be able to accommodate a variety of ground and kerb conditions,
  - (iii) support a combined wheelchair and occupant mass of at least 300kg,
  - (iv) where detachable, be suitable for manual handling,
  - (v) have a safe means of stowage in the vehicle,
  - (vi) where detachable, be permanently marked with the vehicle registration number of the associated vehicle,
  - (vii) where detachable, have an adequate locating device to ensure that it does not slip or tilt when in use,
  - (viii) provide a continuous, slip-resistant surface for the wheels of the wheelchair,
  - (ix) be a minimum of 700 millimetres in width between the edge upturns,
  - (x) have safety edge upturns that are at least 25 millimetres in height,
  - (xi) at all times be in good working order and available for use, and
  - (xii) display a Safe Working Load (SWL) marking.
- (2) The Authority may waive one or more of the requirements of paragraph (1) in respect of a wheelchair ramp or powered lift assembly on the application of a manufacturer in respect of a particular design that cannot accommodate the specification or specifications in question where the Authority is satisfied that the merits of an innovative design solution for the consumer outweigh the desirability of compliance with this specification or specifications.
- (3) In relation to a wheelchair accessible taxi licence first granted before 8 June 2010, and where the vehicle associated to the licence is the same vehicle as that which was associated to such licence on 1 January 2013, such vehicle shall be provided with a ramp or other mechanism to permit the safe entry and egress of a passenger seated in a wheelchair. The ramp or other mechanism shall be capable of transporting a combined wheelchair and occupant mass of 300 kilogrammes minimum between the road and the vehicle interior without the assistance of any person but the driver of the vehicle and at all times be in good working order and available for use, and display a Safe Working Load (SWL) marking. A ramp, where used, shall be such as to provide at least 3.6 units of length for each unit of height, measured at its highest point. The ramp(s), where detachable, shall have an adequate locating device to ensure that they do not slip or tilt when in use.

### **Wheelchair and Occupant Restraint Requirements**

10. (1) Subject to paragraph (2) the vehicle shall comply with the following requirements -
- (a) a wheelchair space shall be fitted with –

- (i) a restraint system in respect of the wheelchair occupant with a minimum of three belt anchorage points providing pelvic and upper torso restraints designed and constructed to perform in a manner similar to a safety belt, and
  - (ii) a wheelchair restraint system suitable for general wheelchair applications,
- (b) a wheelchair restraint system shall be capable of being securely attached to the vehicle belt anchorages,
  - (c) a wheelchair occupant restraint system shall be capable of being securely attached to the vehicle belt anchorages,
  - (d) the wheelchair restraint belt anchorages shall be symmetrically located longitudinally relative to the wheelchair space provided,
  - (e) subject to paragraph (6), a minimum of four restraints shall be provided in respect of each wheelchair; two front and two rear for the purpose of securing the wheelchair to the vehicle wheelchair restraint belt anchorages,
  - (f) a vehicle with EC Whole Vehicle Type Approval fitted with alternative wheelchair restraints and proven to the satisfaction of the Authority to have successfully demonstrated an equivalent level of performance to that set out in Schedule 7 will be considered acceptable,
  - (g) an application for a wheelchair accessible taxi licence or wheelchair accessible hackney licence shall include documentary proof that the wheelchair restraint belt anchorages have met the standards set out in Schedule 7,
  - (h) an application for a wheelchair accessible taxi licence or wheelchair accessible hackney licence shall include documentary proof that the wheelchair occupant restraint belt anchorages have met the standards set out in Schedule 7,
  - (i) each tie down or restraint device shall be clearly marked or designed or permanently attached to its belt anchorages in a manner to avoid the attachment of a tie down or restraint to the incorrect belt anchorage, and
  - (j) tie downs, straps, components and sub-assemblies of wheelchair restraint systems equipment shall comply with the requirements of the relevant part of ISO 10542 or equivalent international standard and be marked accordingly.
- (2) In relation to a wheelchair accessible taxi licence first granted before 8 June 2010, and where the vehicle associated to the licence is the same vehicle as that which was associated to such licence on 1 January 2013, the vehicle shall comply with the following requirements –
- (a) the area designated for the accommodation of the wheelchair and its occupant (the wheelchair space) which shall be provided with a restraint system or systems fixed to the structure of the vehicle by an appropriate means for the purpose of securing the wheelchair and its occupant.
  - (b) for the purpose of sub-paragraph (a), an appropriate means shall be deemed to have been provided where the vehicle is equipped as follows –

- (i) four restraints – two to the front and two to the rear – shall be provided for the purpose of connecting the wheelchair to anchorage points on the vehicle,
- (ii) a minimum of a lap belt shall be provided for the purpose of securing the wheelchair occupant,
- (iii) fixed anchorage points shall be provided for each wheelchair restraint and for the lap belt, or alternatively straight tracks shall be provided that allow for variation in the location of anchorage points.
- (iv) The location of anchorage points under either of these arrangements shall be such as to provide, as a minimum, one anchorage point in each of the locations A1 and A2, or alternatively A3 and A4, in addition to one anchorage point in each of the locations B1 and B2 or alternatively B3 and B4 as set out in the following drawing:–

All dimensions in mm

- (v) the wheelchair's front and rear restraints shall be connected to the front and rear anchorage points, respectively. A lap belt shall either be connected to the two rear restraints of the wheelchair, to the two rear anchorage points for the wheelchair or to two anchorage points positioned to provide downward and rearward restraint on the pelvic area of the wheelchair occupant,
- (vi) each single fixed anchorage point shall be attached to the structure of the vehicle by a high tensile bolt or set screw of not less than 10 millimetres in diameter with a reinforcing plate or washer having no sharp edges and measuring not less than 75 cm<sup>2</sup> in size and not less than 3 mm in thickness – fastened tightly with a locknut,

- (vii) where a track is used it shall have a minimum length of 200 millimetres and shall be attached to the structure of the vehicle by a minimum of 4 high tensile bolts or set screws of not less than 6 millimetres in diameter with reinforcing plates or washers not less than 35 cm<sup>2</sup> in size and not less than 1 mm in thickness – fastened tightly with a locknut. For each additional length of track, measuring 120 millimetres or part thereof, there shall be at least one additional bolt or screw conforming to the above specification. The bolts or set screws nearest each end of the track shall be located not more than 25 millimetres from the ends of the track and the distance between adjacent bolts or set screws shall not be less than 75 millimetres nor more than 125 millimetres,
- (viii) if the location of an anchorage point is contoured, the reinforcing plate or washer shall be formed to fit the shape of the area and shall be augmented, if necessary, with a shaped spacer so as to ensure that the face of the locknut is parallel to the surface against which it is tightened, and
- (ix) in any case where the bolts or set screws pass through doubleskin or hollow panels, spacers of the correct dimensions shall be used to avoid compressing or causing distortion to the panels.

#### **User Manual**

- 11. A user manual detailing the correct use of the vehicle's wheelchair related equipment shall be kept in the vehicle.

#### **Handholds**

- 12. The vehicle shall be equipped with a handhold or rail to assist a passenger to access to or exit from the vehicle, such handhold or rail shall -
  - (a) be approximately 30 millimetres in diameter,
  - (b) have a clearance of at least 35 millimetres between the inside of the working surface of a handhold or rail and any adjacent surface,
  - (c) be slip-resistant, and
  - (d) be brightly coloured contrasting to the colour scheme of the general interior.

#### **Targeted Interior Lighting**

- 13. The vehicle shall be equipped with localised lighting of not less than 200 lux at the entrance step and the background interior lighting level shall be not less than 150 lux.

#### **Flooring**

- 14. The vehicle which shall be fitted with slip-resistant flooring. Any transitions between the floor and the doorways or seats shall be delineated in a bright colour contrasting to the colour scheme of the general interior.

### **Intercom and Induction Loop**

15. Where a vehicle is fitted with a full dividing screen, partition or bulkhead between the driver and passenger compartment, the vehicle shall be fitted with an intercom and induction loop. Where an intercom and induction loop is fitted, signage shall be clearly displayed in the passenger compartment to advise passengers of these facilities.

### **Accessibility Symbol (wheelchair accessible hackney only)**

16. A wheelchair accessible hackney shall display externally on a passenger door the following symbol or a substantially similar symbol of not less than 105mm in height and of a clearly contrasting colour:

### **Modified Vehicles**

17. Documentation in accordance with Regulation 29 is required in respect of all modified vehicles.

## SCHEDULE 5

### General Vehicle Requirements for Limousines

#### Vehicle Weight and General Characteristics

1. The vehicle shall –
  - (a) be a mechanically propelled vehicle which is designed and constructed for the carriage of passengers with passenger seating accommodation for no more than eight persons (exclusive of the driver). Other than a vehicle in respect of which the small public service vehicle licence was in force in respect of the vehicle on 1 January 2013, the vehicle shall have a maximum design gross vehicle weight not exceeding 3,500 kilogrammes,
  - (b) be evidently suited by reason of its style and condition for the provision of hire services for ceremonial occasions, or for corporate or other prestige purposes, and
  - (c) be a vehicle of such make and model as the Authority may from time to time specify or such equivalent make and model as the Authority may approve.

#### Wheel Arrangement

2. The vehicle shall have at least four wheels arranged in axle pairs such that the minimum wheelbase is 2,100 millimetres, the minimum track width is 1,100 millimetres and any side to side variation in wheelbase is less than 75 millimetres.

#### Tyre Load Rating

3. The tyres shall have a load rating appropriate for the design gross vehicle weight, with such tyre load rating for stretched vehicles to be a minimum of 107 unless documentary evidence from the vehicle manufacturer recommending a lower rating is supplied.

#### Doors and Windows

4.
  - (1) Where passengers are carried in a compartmented section of the vehicle (i.e. an area with seats and a permanent rigid roof), there shall be at least two doors that open into or from this compartmented area which provide access to passenger seats. Where there is more than one row of passenger seats to the rear of the driver, at least one of these doors shall be to the rear of the driver. A rear door (vertically hinged) shall constitute a door for the purposes of this paragraph, provided it was clearly designed or constructed for the intended purpose of passenger access.
  - (2) All doors shall be operable from inside or outside the vehicle by a passenger provided that a door may be automatically locked while the vehicle is in motion subject to it automatically unlocking once the vehicle becomes stationary.
  - (3) All passenger (side) windows shall be readily operable.
  - (4) All windows shall be clean.
  - (5) Except for a band of a maximum of 125 millimetres in depth at the top upper edge, the front windscreen of a small public service vehicle shall exhibit 70 per cent minimum visible light transmission.

### **Bull Bars**

5. No bull bars shall be fitted to the vehicle, except where they are compliant with Regulation 78/2009/EC as amended and evidence of that compliance, in form and substance satisfactory to the Authority, has been provided.

### **Cleanliness**

6. The vehicle shall be in a good and clean condition and its interior shall be free of dust, dirt, grime, refuse, litter, objectionable matter or unpleasant smell.

### **Seating Quality**

7. The vehicle shall be fitted with seats which are properly upholstered with leather, good quality artificial leather or other durable material, and which are in a clean and hygienic condition.

### **Exterior Paint**

8. The exterior paint of the vehicle shall exhibit good colour consistency without paint or bodywork repairs in progress.

### **Passenger Compartment Temperature**

9. Other than in respect of a vehicle exceeding thirty years of age, the vehicle shall be capable of maintaining a passenger compartment temperature of 20 degrees centigrade during an external ambient temperature of minus 5 degrees centigrade.

### **Safety Equipment and Communications**

10. (1) The vehicle shall safely carry the following articles –
  - (a) subject to paragraph (2), a spare wheel system,
  - (b) a first-aid kit, being a within date first aid kit complying with DIN (Deutsches Institut für Normung) 13164 or comparable travel kit recommended by the Health and Safety Authority,
  - (c) a fire extinguisher, meaning a fire extinguisher in serviceable condition complying with EN3 and suitable for inflammability classes A, B and C, with a minimum capacity of 2 kilogrammes of dry powder or an equivalent capacity for any other suitable extinguishing agent,
  - (d) a reflective advance warning triangle to standard ECE Regulation 27,
  - (e) a high visibility reflective safety vest to standard ANSI 107, BS EN 471 or CEN 471 or equivalent,
  - (f) a working handheld torch, and
  - (g) a pen and paper.
- (2) The Authority may reduce the requirements of paragraph (a) where the vehicle concerned exceeds thirty years of age or the vehicle is a series production electric vehicle, a series production hybrid electric vehicle, a series production flexible fuel

vehicle or a series production plug-in hybrid electric vehicle, or a vehicle adapted for liquefied petroleum gas or compressed natural gas.

### **Interior Lighting**

11. The standard fitment interior lighting of the vehicle shall be in operational condition.

### **Seat Structure Requirements**

12. (1) Subject to paragraph (2), the vehicle shall be fitted with safety belts, belt anchorages, seats, seat anchorages, seat mechanisms, and head restraints that comply with the technical provisions of the relevant passenger car (M1) EC/UNECE standards and documentary evidence of such compliance shall be available in respect of any vehicle modifications.
- (2) Where -
- (a) in the case of the renewal of a limousine licence, the vehicle to which the licence relates was associated with such licence on the date that these Regulations entered into force, or
- (b) the Authority is satisfied that the design and construction characteristics of the vehicle are of a unique or particular design such that compliance with the specifications in paragraph (1) cannot be reasonably accommodated,
- the vehicle shall have safety belts, belt anchorages, seats, seat anchorages, seat mechanisms, and head restraints which comply with the relevant requirements of the Construction, Equipment and Use Regulations.
- (3) Each passenger seat in a vehicle shall -
- (a) have a minimum squab width of 400 millimetres, and
- (b) shall be firmly and securely fixed in the vehicle when in a position for passenger occupation.

### **Modified Vehicles**

13. Documentation in accordance with Regulation 29 is required in respect of all modified vehicles.

## SCHEDULE 7

### Wheelchair and Occupant Restraint Belt Anchorage Requirements (Static Test)

1. A static test should be carried out on the belt anchorage points for both the wheelchair restraint system and the wheelchair occupant restraints in accordance with the requirements below -
  - (a) the forces specified in subparagraph 2(a) should be applied by means of a device reproducing the geometry of the wheelchair restraint system i.e. rigid surrogate wheelchair with attachment points for front and rear restraints,
  - (b) the forces specified in subparagraph 2(b) should be applied by means of a traction device specified in paragraph 5.3.4 of Annex 1 of Council Directive 76/115/EEC, as amended, and supported on the device defined in paragraph (a),
  - (c) the forces in subparagraphs (a) and (b) above should be applied simultaneously in the forward direction and at an angle of between 5° and 15° above the horizontal plane,
  - (d) the forces in subparagraph (a) above should be applied in the rearward direction and at an angle of between 5° and 15° above the horizontal plane,
  - (e) the forces should be applied as rapidly as possible (a maximum load introduction time of ten seconds) through the central vertical axis of the wheelchair space,
  - (f) the force should be maintained for a period of not less than 0.2 seconds, and
  - (g) the test should be carried out on a vehicle or a representative section of the vehicle structure together with any fitting provided in the vehicle which is likely to contribute to the strength or rigidity of the structure. Only the components of the wheelchair restraint and occupant restraint devices which form part of the belt anchorages with the vehicle are required for the purposes of the test.
2. The forces referred to in paragraph 1 are -
  - (a) in the case of belt anchorages provided for the wheelchair restraint system -
    - (i) 22250N ± 200N applied in the longitudinal plane of the vehicle and towards the front of the vehicle at a height of not less than 200 millimetres and not more than 300 millimetres measured vertically above the floor of the wheelchair space, and
    - (ii) 11100N ± 200N applied in the longitudinal plane of the vehicle and towards the rear of the vehicle at a height of not less than 200 millimetres and not more than 300 millimetres measured vertically above the floor of the wheelchair space,
  - (b) in the case of belt anchorages provided for a wheelchair occupant restraint system, the forces should be in accordance with the requirements of paragraph 5.4 of Annex 1 of Directive 76/115/EEC, as amended for M1 vehicles.

3. A test carried out under paragraph 1 shall fail unless the following requirements are met -
- (a) no part of the system should have failed, or should have become detached from its belt anchorage or from the vehicle during the test,
  - (b) any mechanism to release the wheelchair and user should be capable of release after completion of the test, and
  - (c) no part of the system should be deformed to such an extent after completion of the test that, because of sharp edges or other protrusions, the part is capable of causing injury.
