

Bringing the city together

LUASCROSSCITY

WHAT IS THE LUAS CROSS CITY?

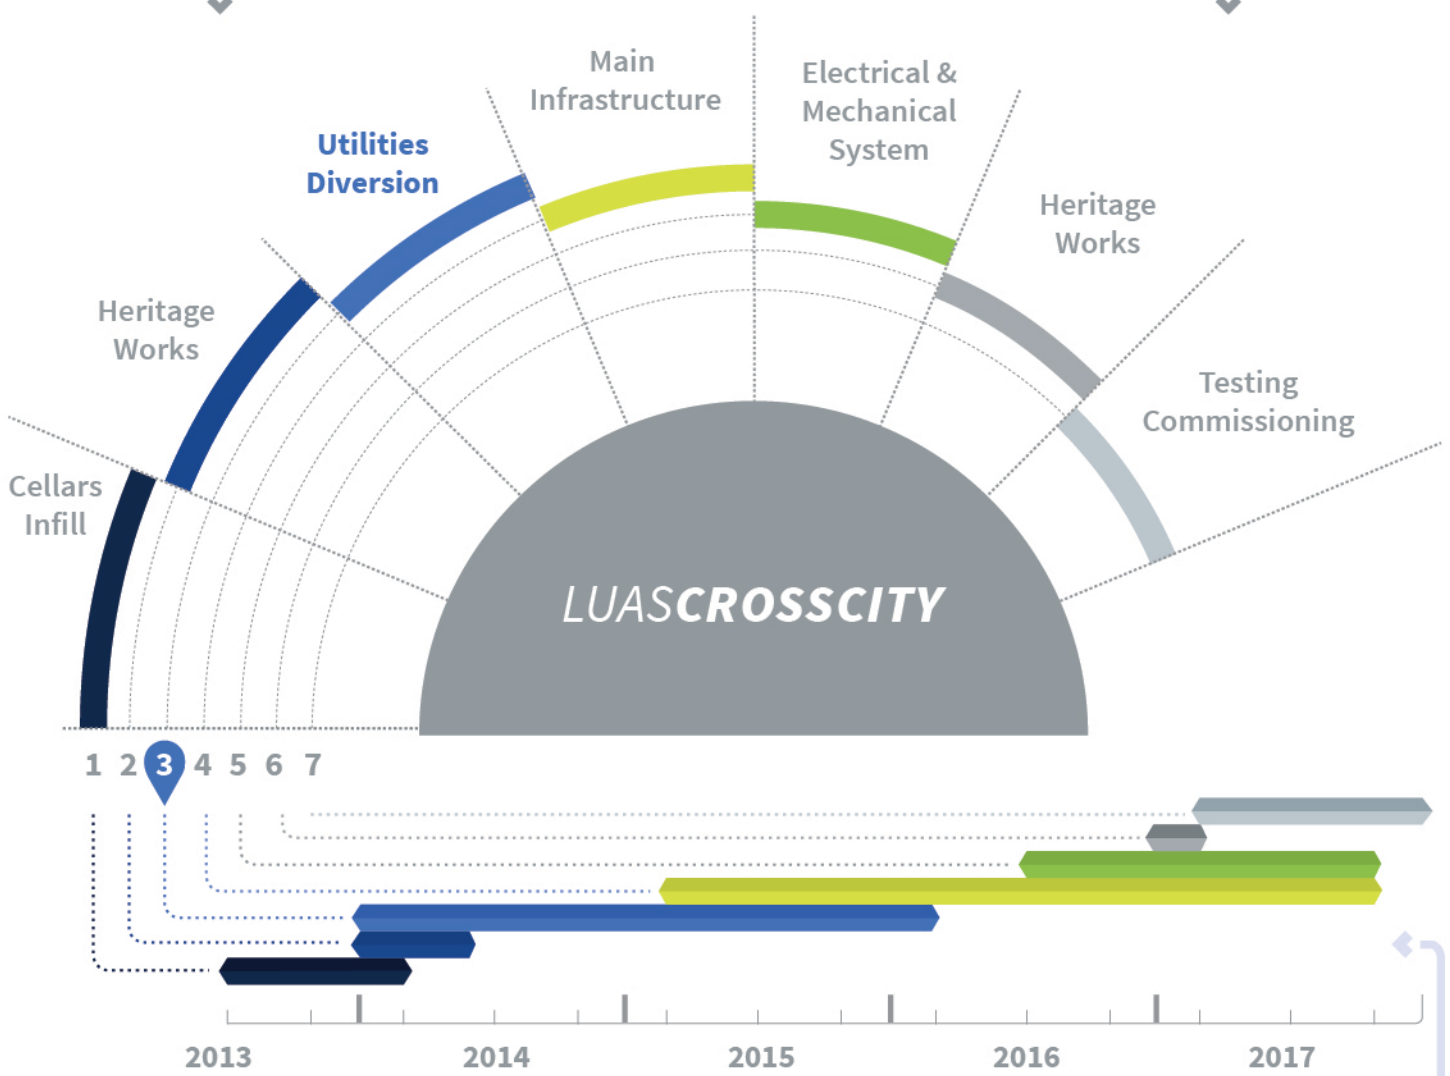

It's the extension of the Luas Green line creating an interchange with the Red Line

13 new stops

8 in the core city centre area

WHAT ARE THE DIFFERENT WORK PHASES?

WHAT WILL HAPPEN DURING THE UTILITIES WORKS CONTRACT?

A new system of utilities will be laid under the footpath and out of the path of the **new Luas route**. The existing utilities under the tram will then be decommissioned once the new utilities are in place.

WHAT IS THE BENEFIT OF THIS WORK PHASE?

It will allow the upgrade of vital city utilities and ensure any future works to the utilities **will not** cause disruption to tram operations.

WHAT IS BEING MOVED?

Construction of **40 Drainage Manholes**

4,000 m **Gas** Services

1,930 m **Electrical** Transmission Services

5,360 m Distribution Services

1,220 m **Sewer** Rehabilitation

5,430 m **Water** Services

10,000 m **Telecom** Services
