Proposed Public Transport Improvements in County Donegal

	Proposal	Connecting		Serving*	Description
Regional Corridor Proposals	31	Dublin	Donegal Town	Virginia, Cavan, Belturbet, Enniskillen, Ballyshannon and other places en route	This corridor is currently served by routes 30 and X30. We propose to maintain the existing level of service and better integrate routes along the corridor to provide a minimum service frequency of 2 hours.
	34	Sligo	Derry / Londonderry	Bundoran, Ballyshannon, Donegal, Ballybofey, Letterkenny and other places en route	This corridor is currently served by routes 64, 480 and 964. We propose more frequent services on this corridor and a better integration of existing services. A minimum service frequency of 1 hour is proposed.
	36A	Dublin	Letterkenny	Dublin Airport, Monaghan, Omagh, Strabane, Lifford and other places en route	This corridor is currently served by routes 32 and 932. We propose to maintain the existing level of service and better integrate routes along the corridor. A minimum service frequency of 2 hours is proposed.
Local Route Proposals	293	Donegal	Glencolmcille	Mountcharles, Killybegs, Kilcar, Carrick and other places en route	We propose to integrate routes 293 and 490 between Glencolmcille and Donegal Town. Minimum service of 7 return trips Monday to Saturday, 4 return trips on Sunday.
	487	Letterkenny	Strabane	Drumkeen, Convo, Ballindrait, Lifford and other places en route	We propose to alter route 487 to serve Ballindrait. Minimum service of 6 return trips Monday to Saturday, 3 return trips on Sunday.
	567	Ballyshannon	Carrick-on-Shannon	Bundoran, Kinlough, Manorhamilton, Drumkeeran, Drumshanbo, Leitrim and other places en route	We propose to integrate routes 567, 567A, 983 and 983A to create a continuous route between Carrick-on-Shannon, Drumshanbo, Manorhamilton and Ballyshannon. Minimum service of 3 return trips a day along the full route, additional services between Carrick-on-Shannon and Drumshanbo and between Kinlough and Ballyshannon.
	953	Letterkenny	Greencastle	Bridgend, Muff, Quigley's Point, Merville and other places en route	We propose to extend route 953 from Merville to Greencastle. Minimum service of 3 return trips a day.
	956	Derry / Londonderry	Buncrana	Bridgend, Burnfoot, Fahan and other places en route	We propose to increase the frequency of existing route 956 from Buncrana to Derry / Londonderry. Minimum service frequency of 1 hour is proposed.
	992	Dungloe	Crolly	Burtonport, Donegal Airport, Annagry and other places en route	We propose to extend route 992 to serve Ranafast and increase its frequency. Minimum service of 3 return trips a day.
Existing Routes	194	Bundoran	Enniskillen	Ballyshannon, Belleek, Pettigo and other places en route	<p>Regional Corridor Proposals</p> <p>Regional Corridors generally operate along main roads, connecting cities and large towns and any settlements en route. Corridors can consist of several routes, some provided commercially and some by the State using financial support. Some run the full length of the corridor between places, and some, only on sections. Connecting Ireland will improve the level of service during the core day, evenings and on weekends on Regional Corridors. We will do this by liaising with existing service providers. New services may be added, or existing services improved.</p> <p>Local Route Proposals</p> <p>Local routes connect smaller towns and villages and their rural catchments with nearby larger towns. This will improve access to the range of services available in larger centres, at more useful times of the day and week, for those living in rural areas and smaller villages. It will also permit transfer to Regional Services to travel onwards, with timed reliable connections.</p> <p>Existing Routes</p> <p>No significant changes are planned to these routes. As the public transport network develops, and as more people travel more often and more widely by public transport, we will continue to review their usage and take steps to ensure their continued fitness-for-purpose.</p> <p>Notes</p> <p>*Serving: The map shows the main alignments of our planned routes and services. Most journeys will take that route. However, there may be a need to deviate from that route to provide connectivity to smaller settlements or areas located off the main alignment, but which also require a level of service. Distinctions may be drawn in the passenger information that we prepare, as support to the maps shown. Connecting Ireland proposes a step-change in public transport connectivity. The minimum level of service we have identified is a starting point in many cases. Where our analysis demonstrates a warrant for levels of service above the minimum, we will plan to provide that, where funding can be identified. Improvements may be delivered in stages as the project proceeds.</p>
