

NTA Mystery Passenger Survey Dublin Metropolitan Area Bus 2021 Quarter 4

Contents:

- Background to Research
- Section 1 Bus Equipment Performance
- Section 2 Bus Driver Performance
- Section 3 Cleanliness Performance - Bus Cleanliness
- Section 4 Cleanliness Performance - Head Office Performance
- Assessment measures

Research Background:

This research programme monitors service, quality and compliance with contractual Dublin Bus requirements through “mystery passenger” surveys, to measure key aspects of service delivery. This mystery passenger programme was designed to provide robust and actionable data to the National Transport Authority to measure the overall service performance of Dublin Bus through the eyes of ‘customers’.

593 mystery passenger surveys were conducted during Quarter 4 with assessors acting as passengers while waiting for and on board selected Dublin Bus routes around the city. A broad spread of bus routes were covered across different days of the week and times of the day. 10 Dublin Bus Head Office interviews were also completed and are included in the Quarter 4 data.

The mystery passenger surveys were carried out by trained Ipsos interviewers. These interviewers use mobile devices which enable both discreet and effective captures of location, bus and driver details at stops, when boarding, on board and after alighting buses.

2021 Quarter 4 took place between 13th Sept and 31st December 2021.

The charts show the percentages of responses for each measure. The base sizes are marked with an asterisk.

Bus Equipment Performance

Contains questions relating to the following Bus Equipment Performance:

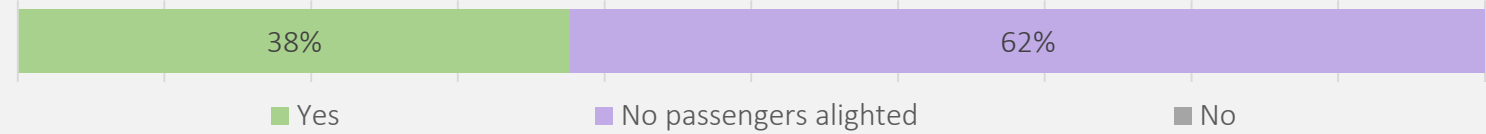

- Centre Doors
- Wheelchair Ramps
- Information Displays / Audio Announcements
- Interior Lighting / On-board Temperature
- CCTV
- WIFI

Bus Equipment Performance

Bus Centre Doors

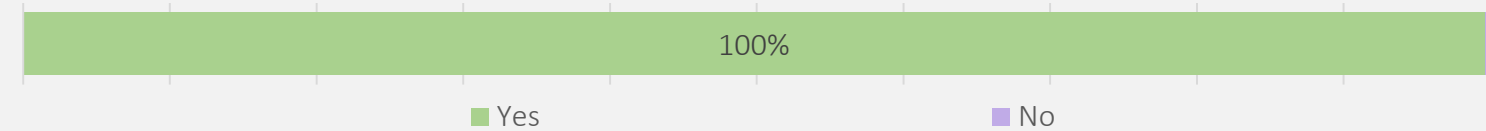

30A. When you were boarding the bus, did the driver open the centre doors for passengers who were getting off the bus? (IF YES TO CENTRE DOORS Q30/1) *512

2021 Q4

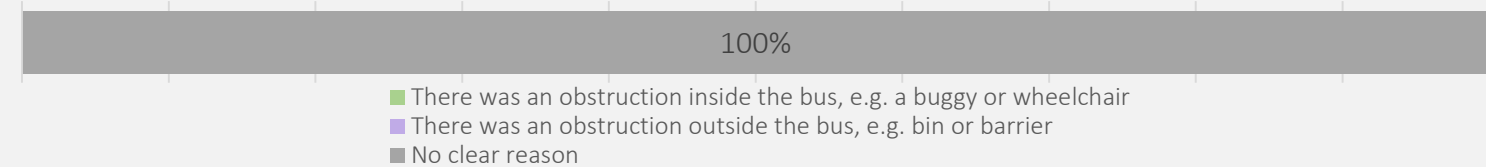

66. When alighting, did the driver open the centre doors for you to alight? (IF YES TO CENTRE DOORS Q30/1) *512

2021 Q4

66A. If "No" What were the reasons? *2

2021 Q4

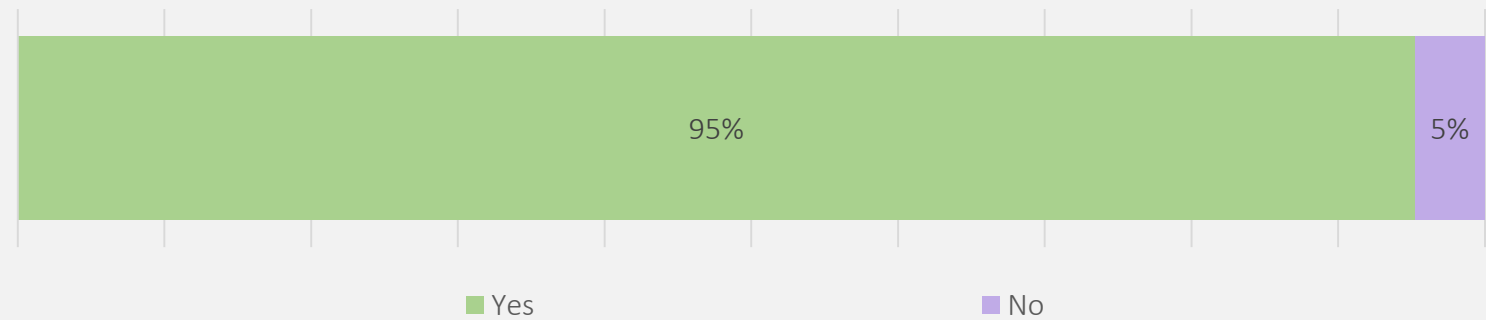

Bus Equipment Performance

Bus Wheelchair Ramp

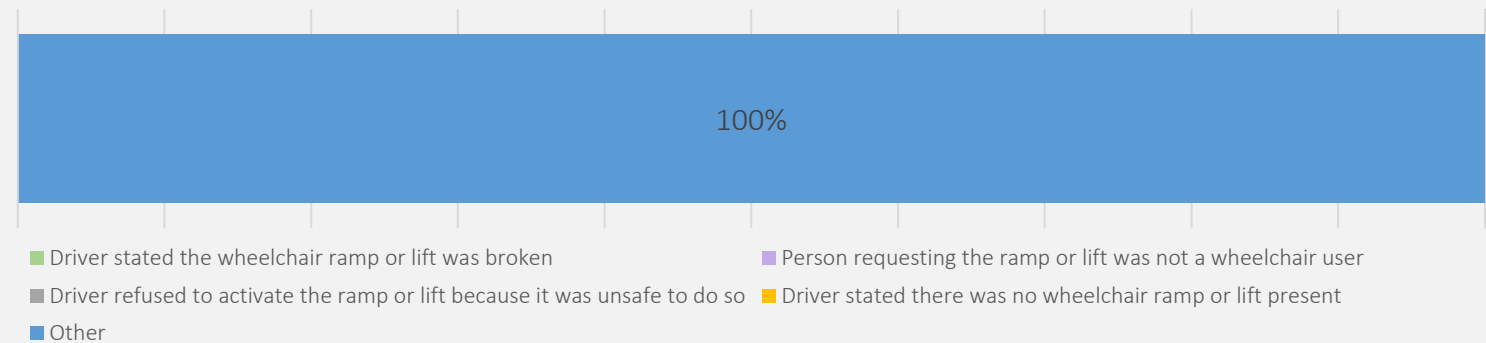

87A. Was the wheelchair ramp or wheelchair lift activated upon request? *21

2021 Q4

87B. If not activated, why was this? *1

2021 Q4

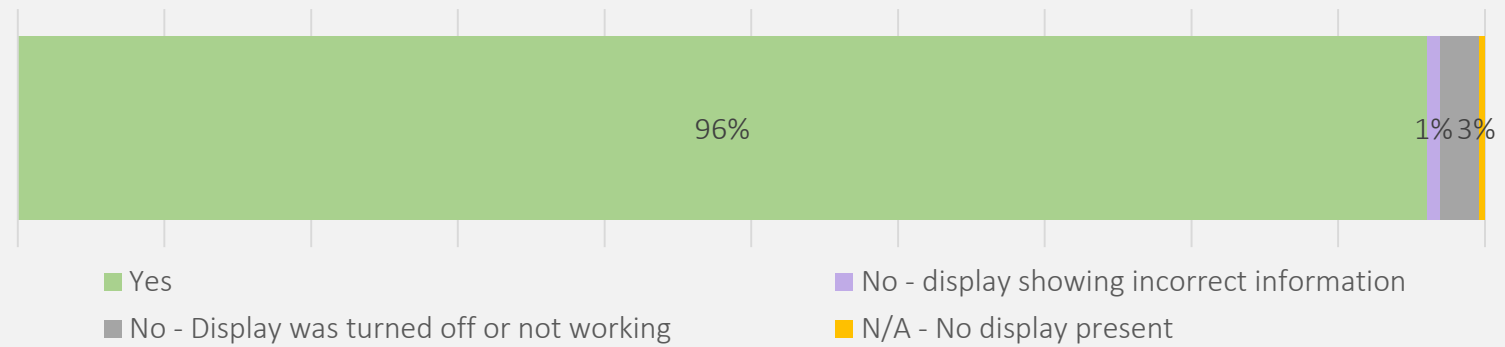

- Driver stated the wheelchair ramp or lift was broken
- Person requesting the ramp or lift was not a wheelchair user
- Driver refused to activate the ramp or lift because it was unsafe to do so
- Driver stated there was no wheelchair ramp or lift present
- Other

Bus Equipment Performance

Bus Electronic Board Performance

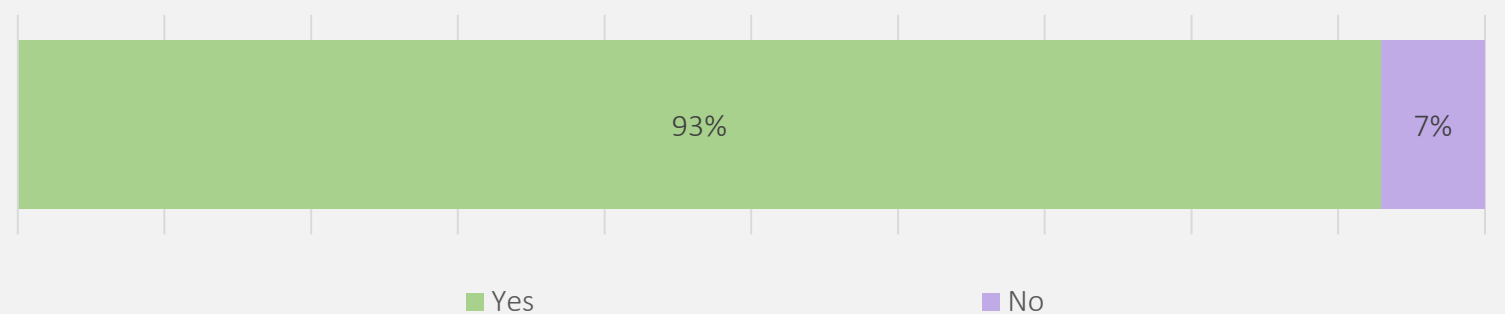

60. Was the information displayed on the electronic board showing correct 'next stop' information? *585

2021 Q4

61. Was there an automatic next stop audio announcement? *593

2021 Q4

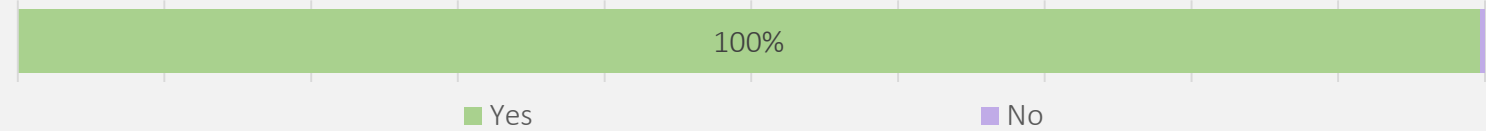

Bus Equipment Performance

Bus Route & Destination Display

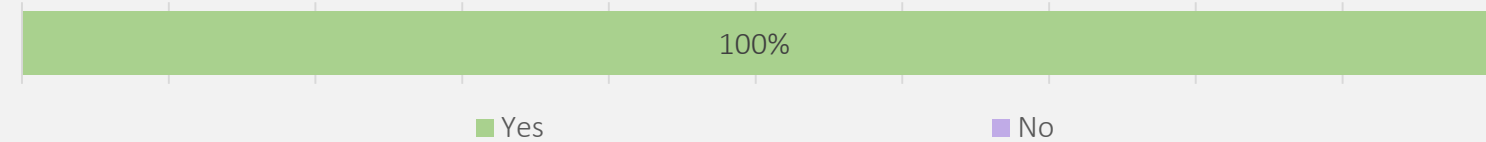

26. Was the route number displayed correctly on the front of the bus? *593

2021 Q4

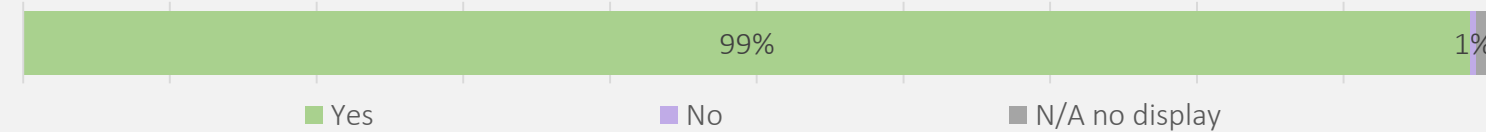

27. Was the destination displayed correctly on the front of the bus? *593

2021 Q4

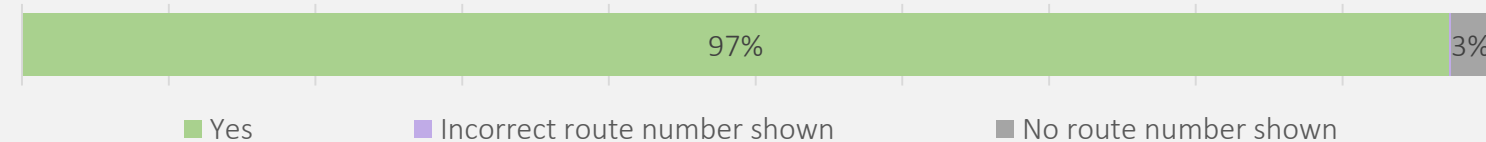

28. Was the route number displayed correctly on the side of the bus? *593

2021 Q4

69. Was the correct route number displayed on the back of the bus? *586

2021 Q4

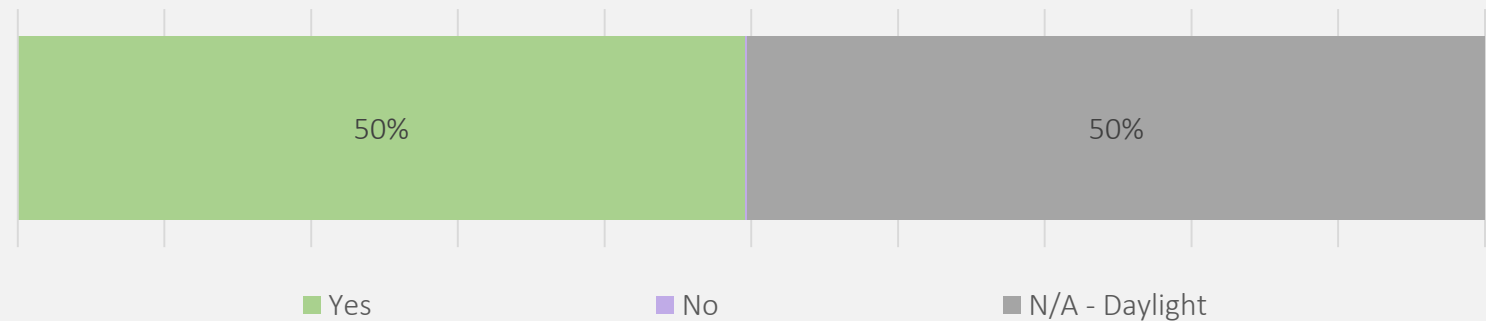

Bus Equipment Performance

Interior Lighting / On-Board Temperature

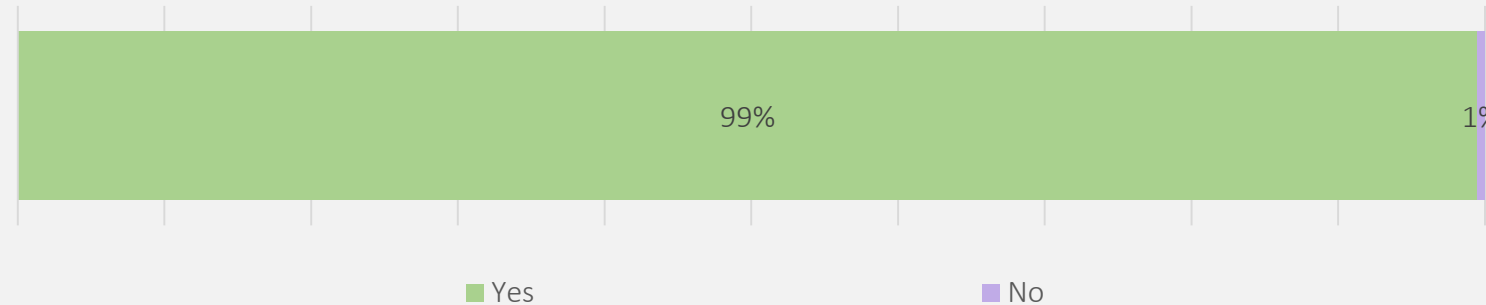

63. Was interior lighting on when required? If daylight, mark N/A. *593

2021 Q4

64. Did you consider the temperature on board the bus was appropriate given the weather conditions? *593

2021 Q4

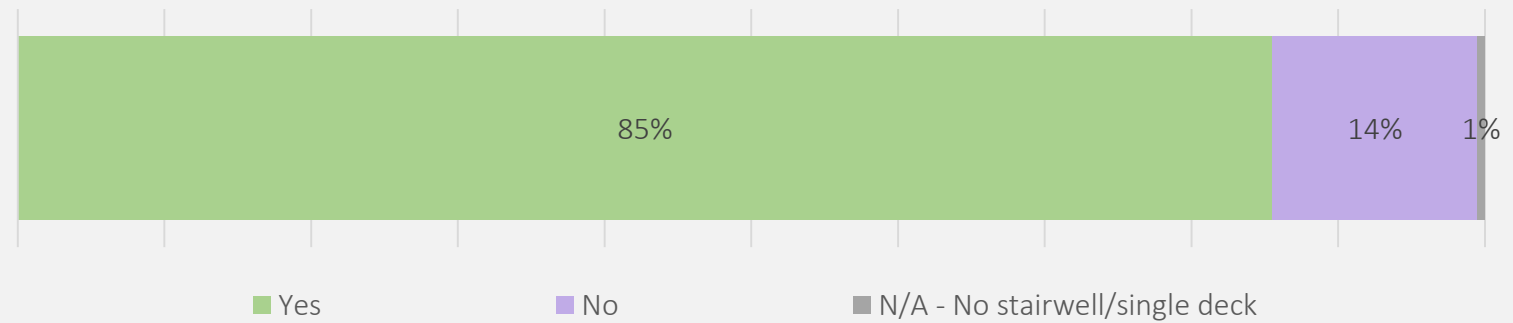

Bus Equipment Performance

Bus CCTV

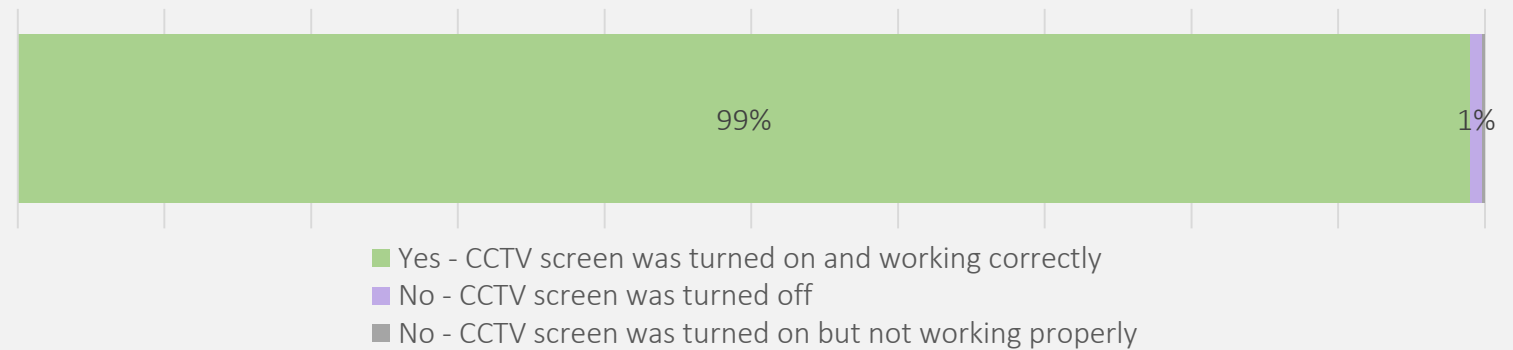

62. Was there a CCTV screen in stairwell on the bus? *593

2021 Q4

62A. Was the CCTV screen in the stairwell working correctly? *507

2021 Q4

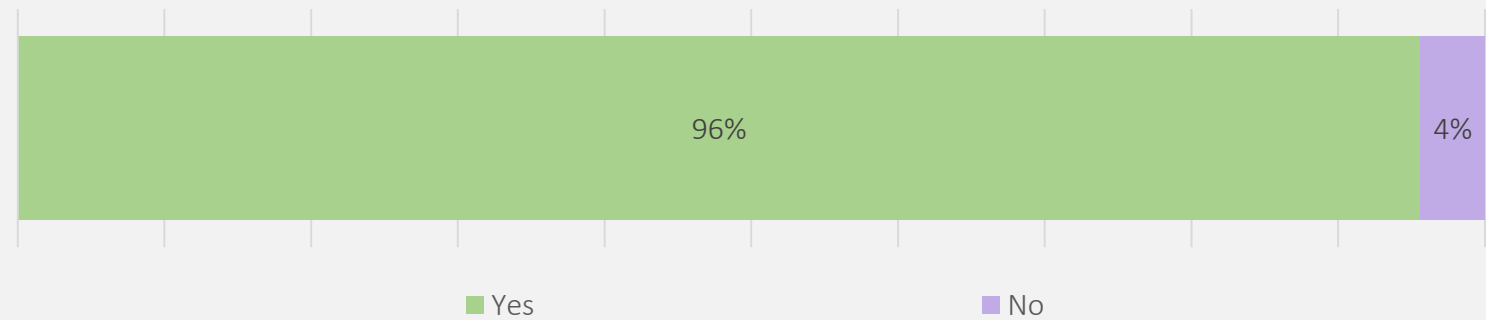

Bus Equipment Performance

On Board WIFI

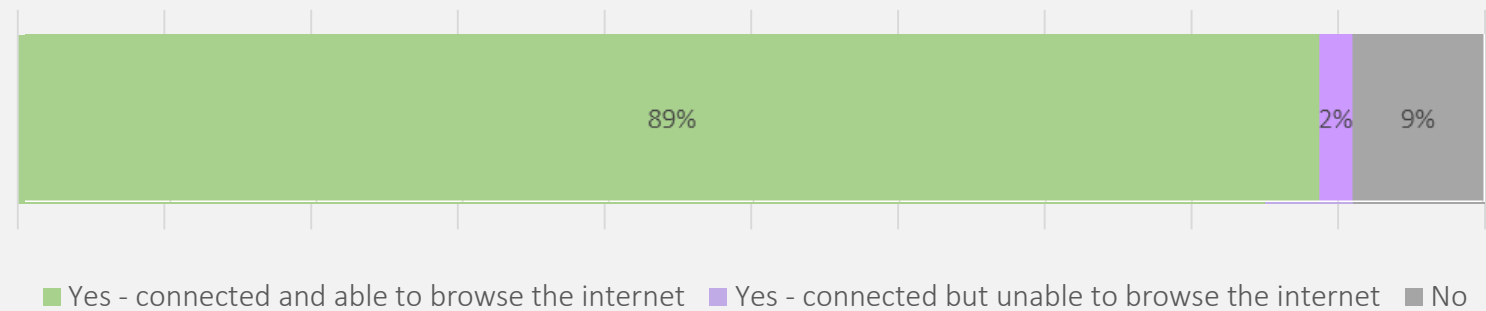

65. Was the operator Wi-Fi available on board the bus?
*593

2021 Q4

65A. Were you able to connect to the operator Wi-Fi network? *567

2021 Q4

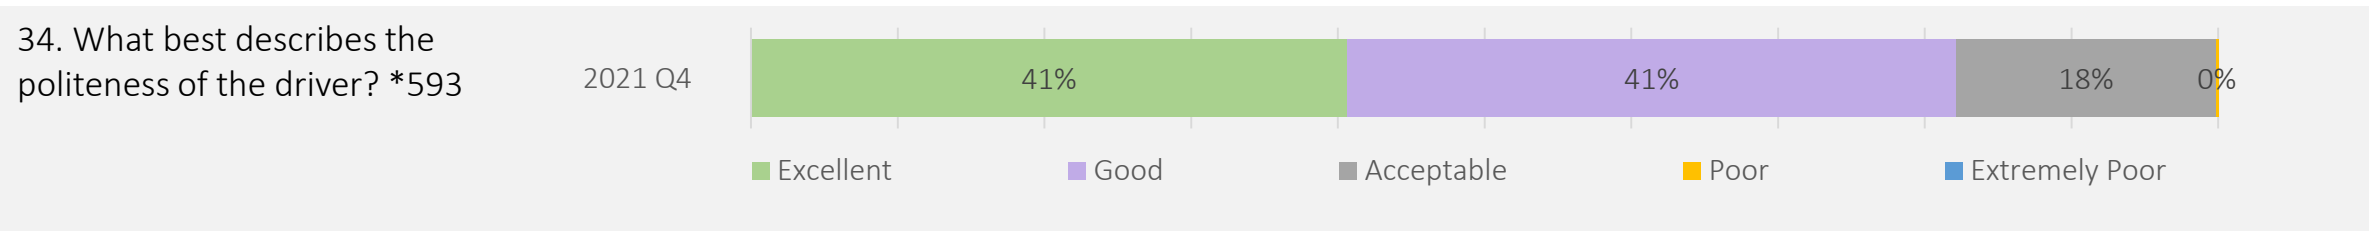

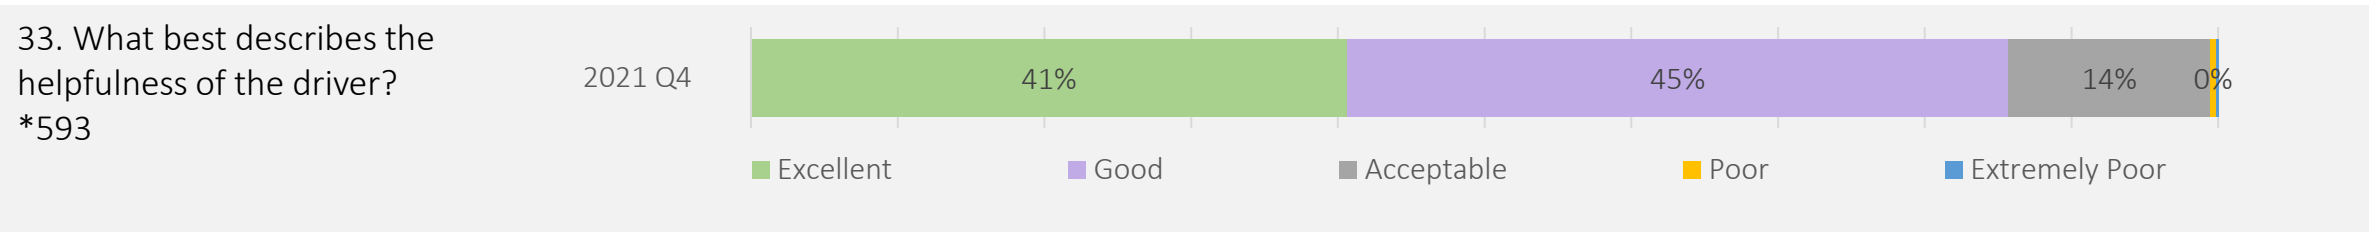

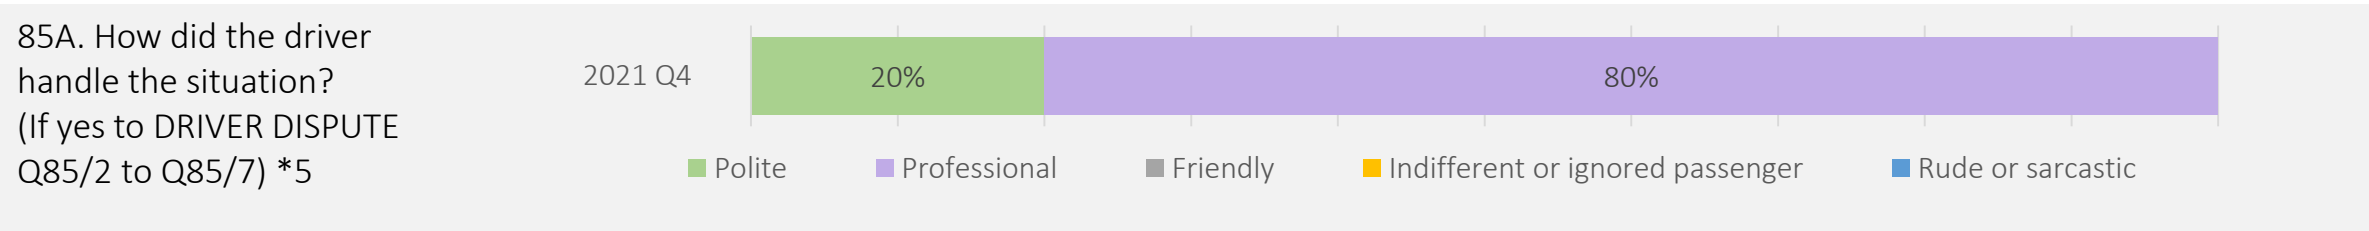

Bus Driver Performance

Contains questions relating to the following Bus Driver Performance:

- Driver Attitude
- Driver Presentation
- Bus Ride Quality
- Serving the Stop
- Other Driver Behaviours
- Route Diversion

Bus Driver Performance

Driver Attitude

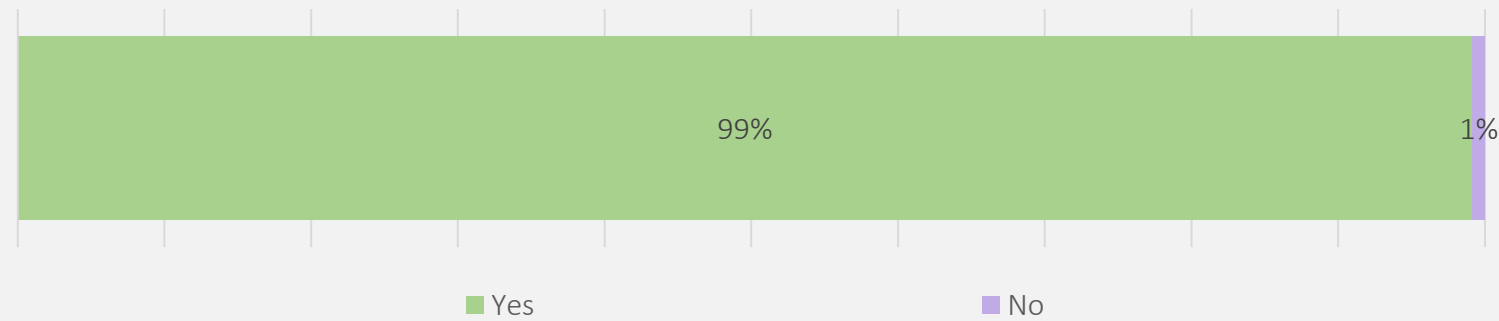

Bus Driver Performance

Driver Presentation

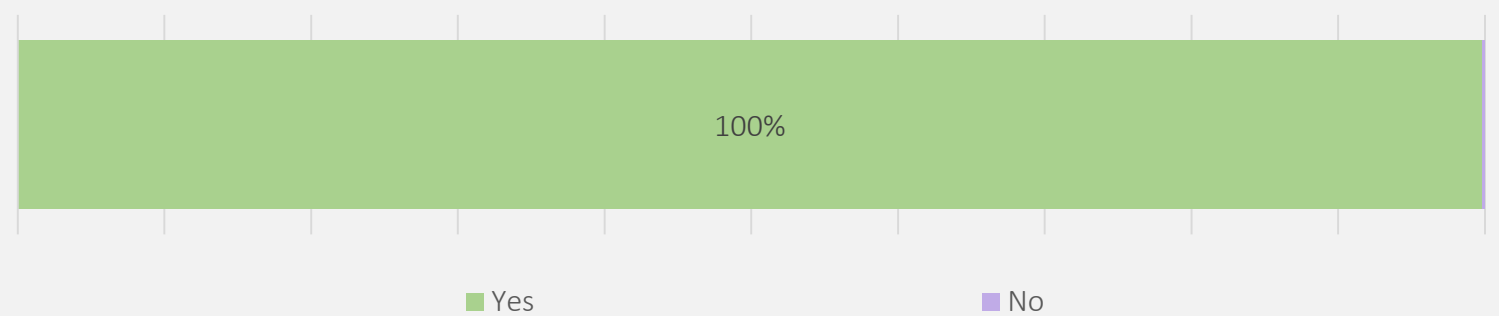

36. Was the driver wearing uniform? *593

2021 Q4

37. Was the driver well presented? *593

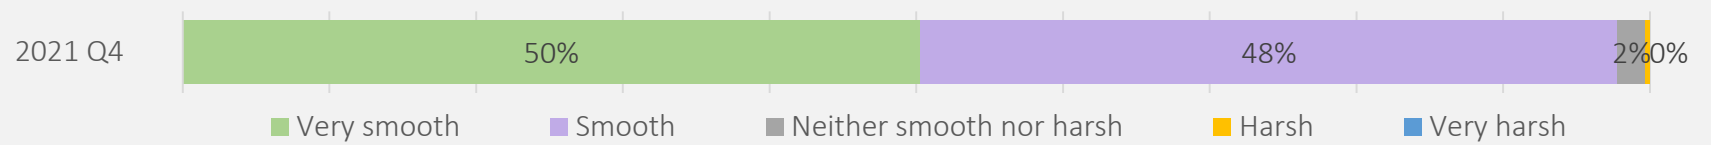

2021 Q4

Bus Driver Performance

Bus Ride Quality

76. How would you rate the smoothness of acceleration based on your journey overall? (ASK ALL) *593

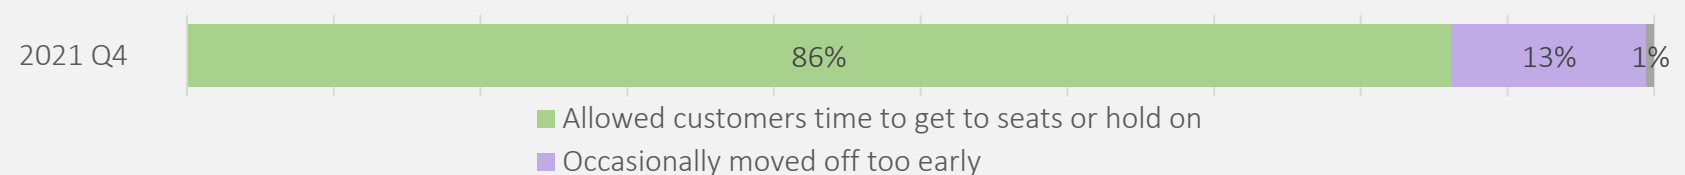

77. How would you rate the smoothness of braking based on your journey overall? *593

78. How would you rate the smoothness of steering based on your journey overall? *593

79. Did the driver give passengers adequate time to find their seats or hold on when moving off? *593

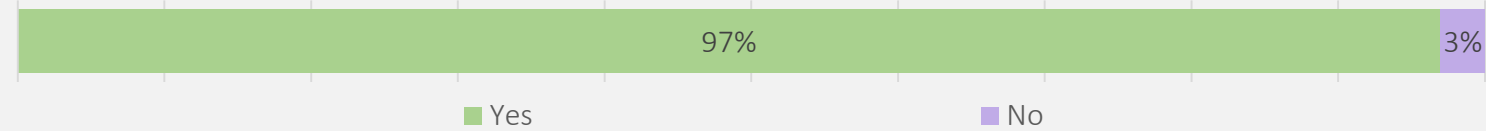

Bus Driver Performance

Serving the Stop

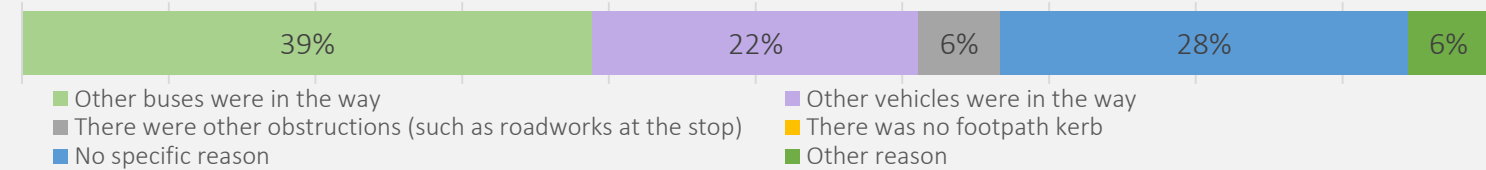

73. When you were getting off, did the bus pull up to the footpath kerb at the bus stop sufficiently to allow passengers board and alight from the bus without walking on the road? *593

2021 Q4

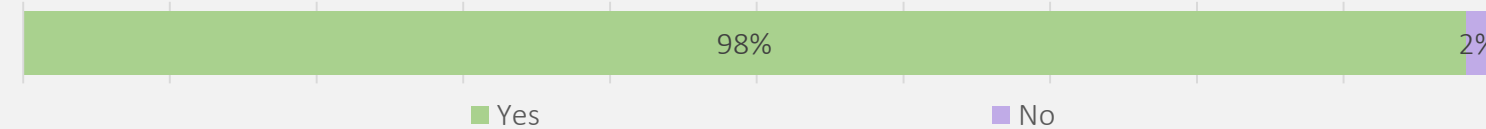

73A. Why did the bus not pull up to the kerb? *18

2021 Q4

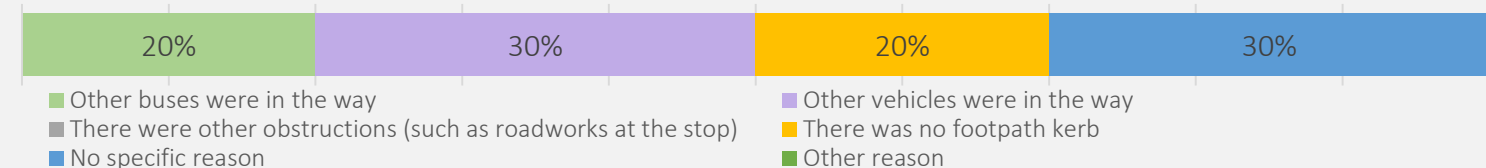

29. When you were getting on, did the bus pull up to the footpath kerb at the bus stop sufficiently to allow passengers board and alight from the bus without walking on the road? *593

2021 Q4

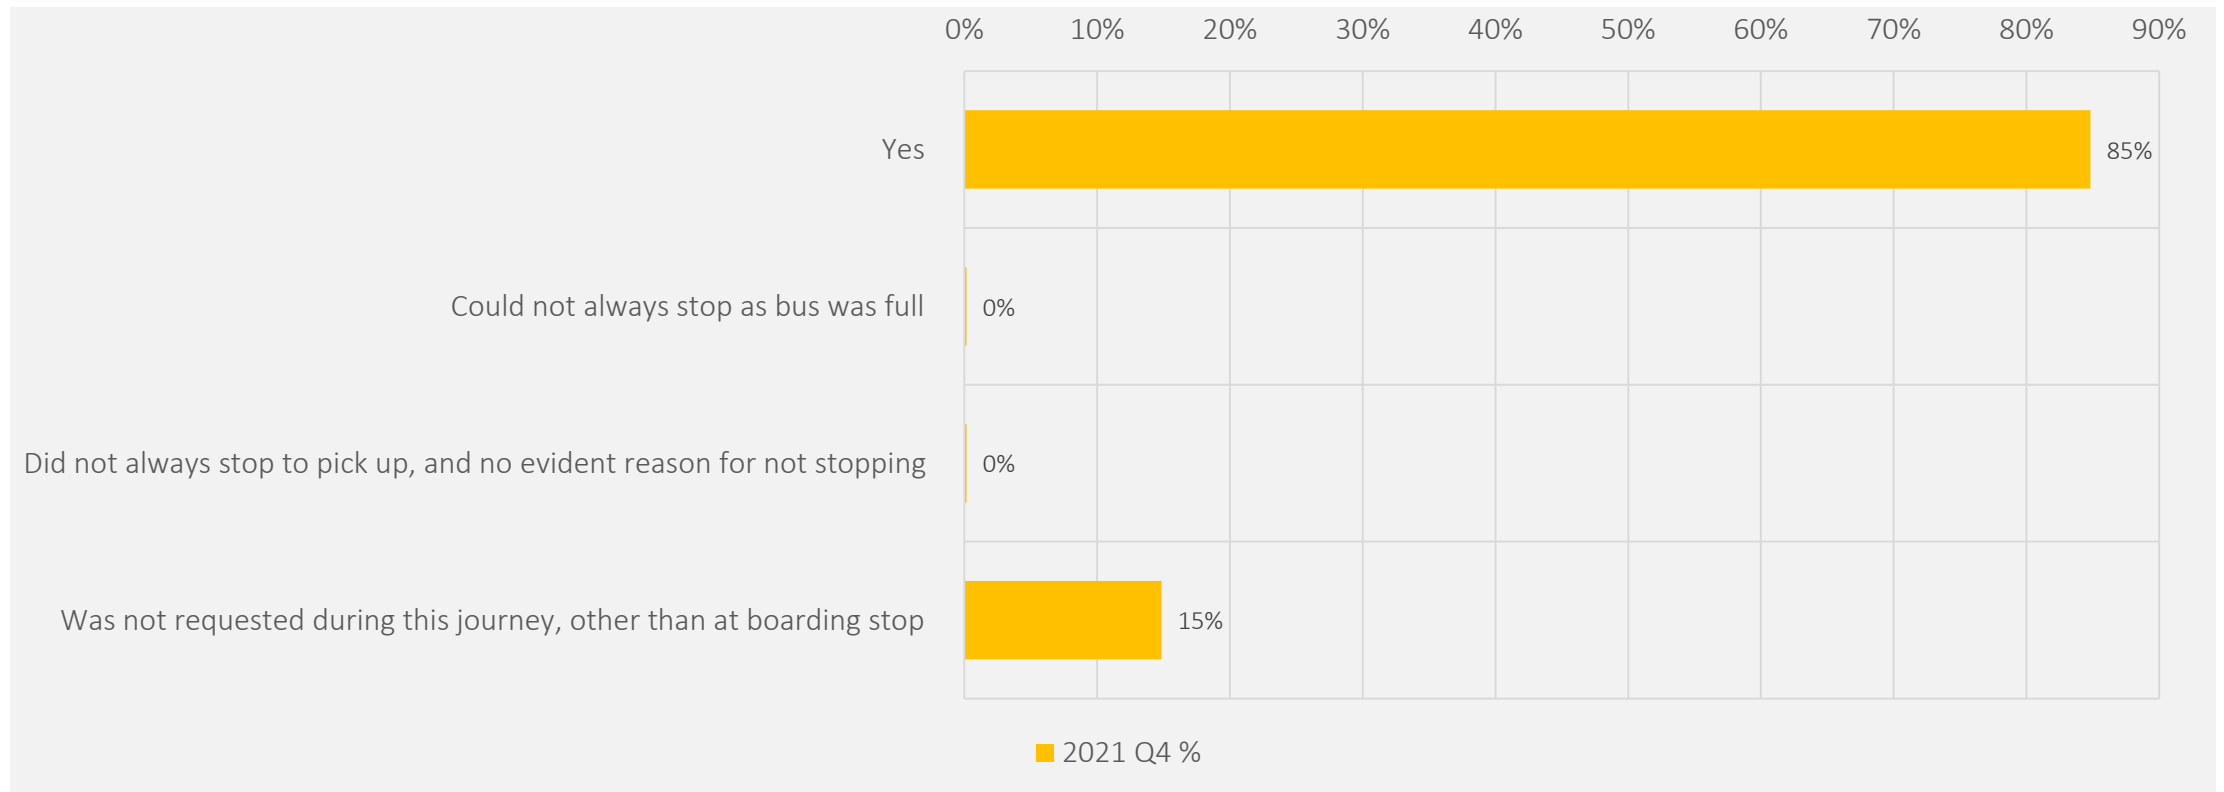

29A. Why did the bus not pull up to the footpath kerb? *10

2021 Q4

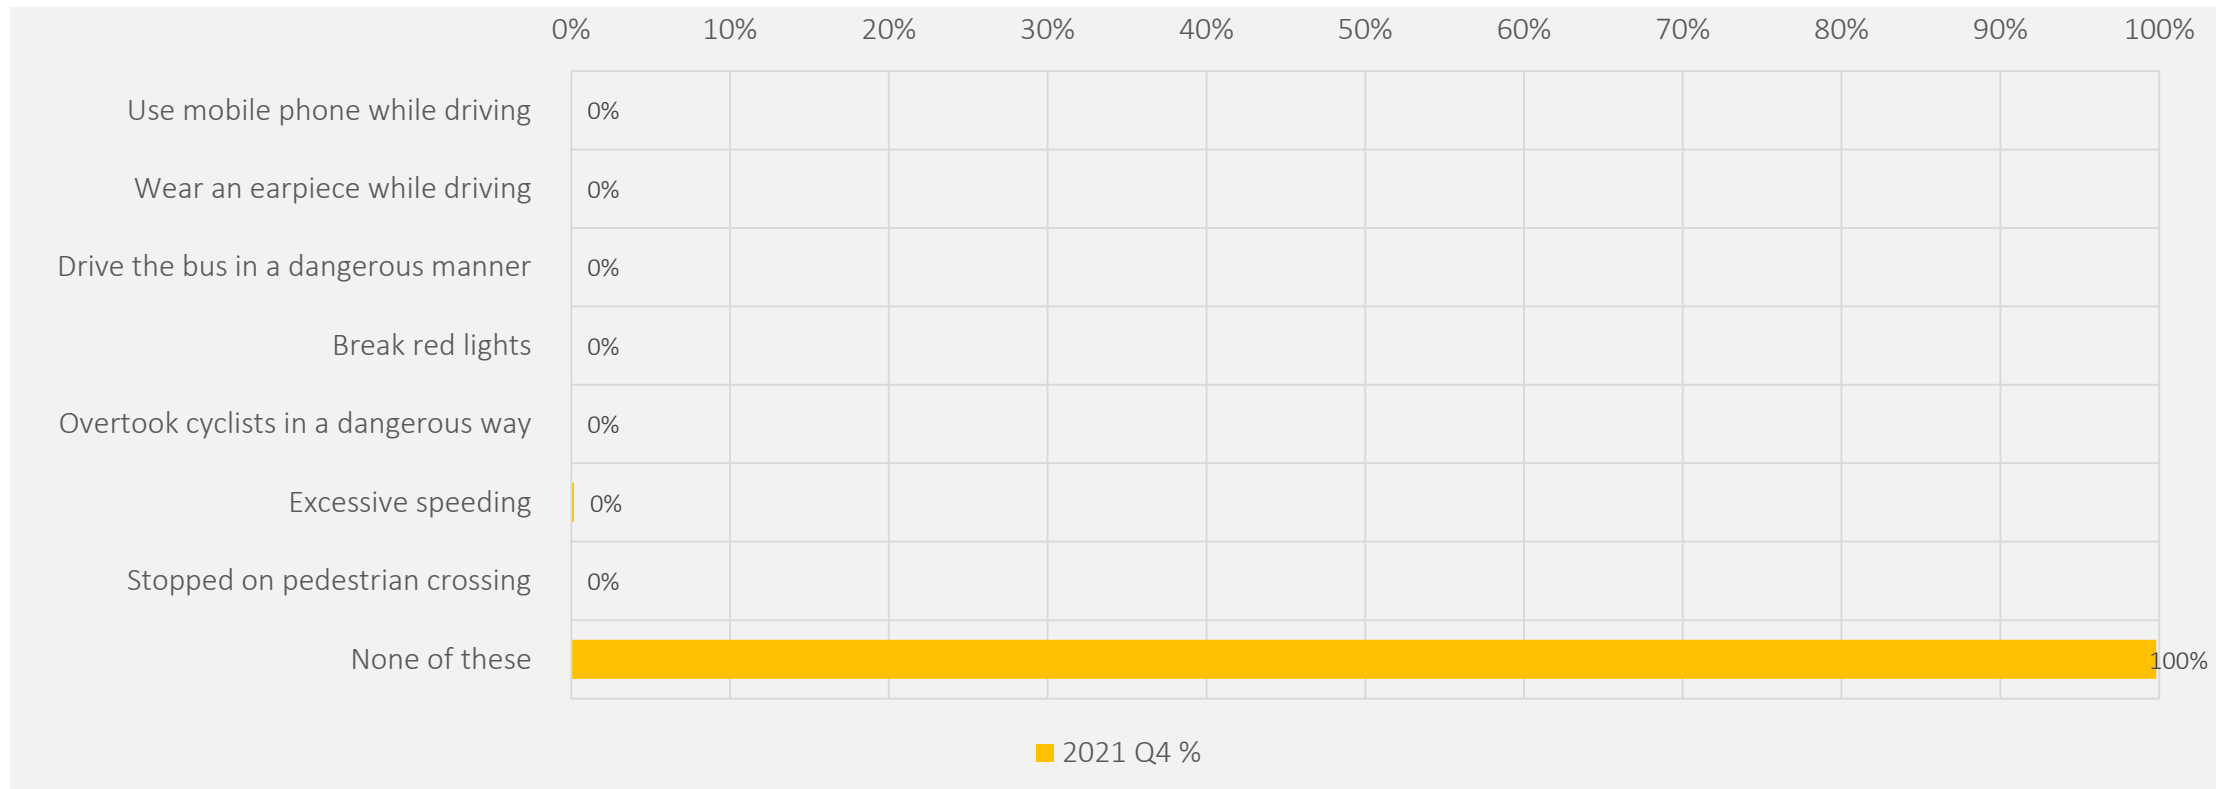

Bus Driver Performance

84. So far as you could tell, did the driver always stop to pick up passengers when requested? *593

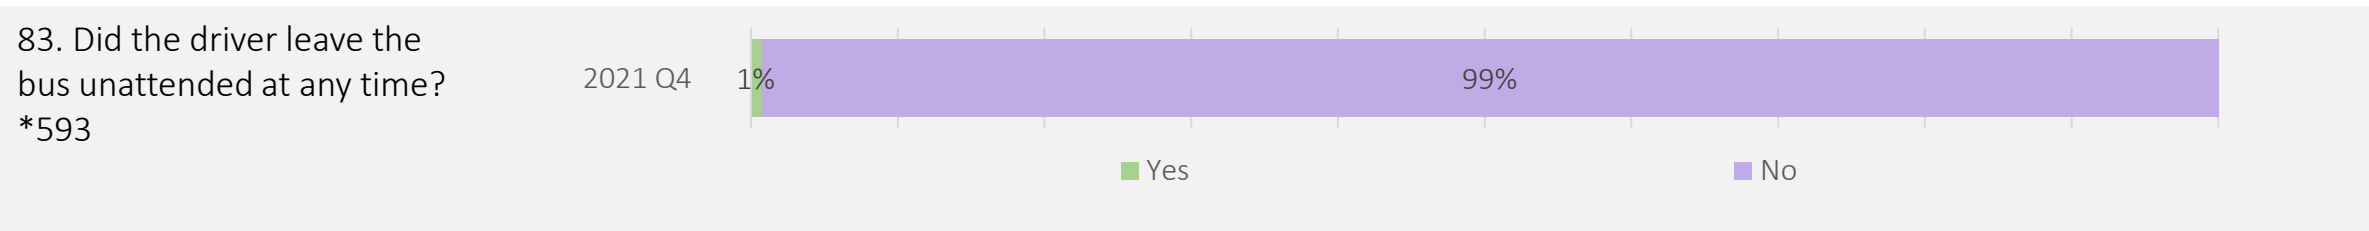

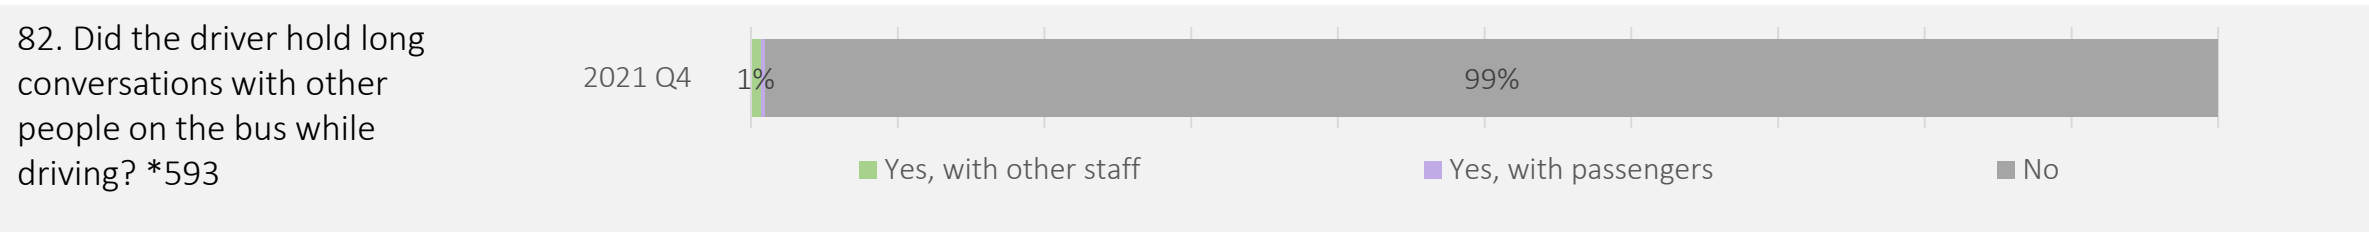

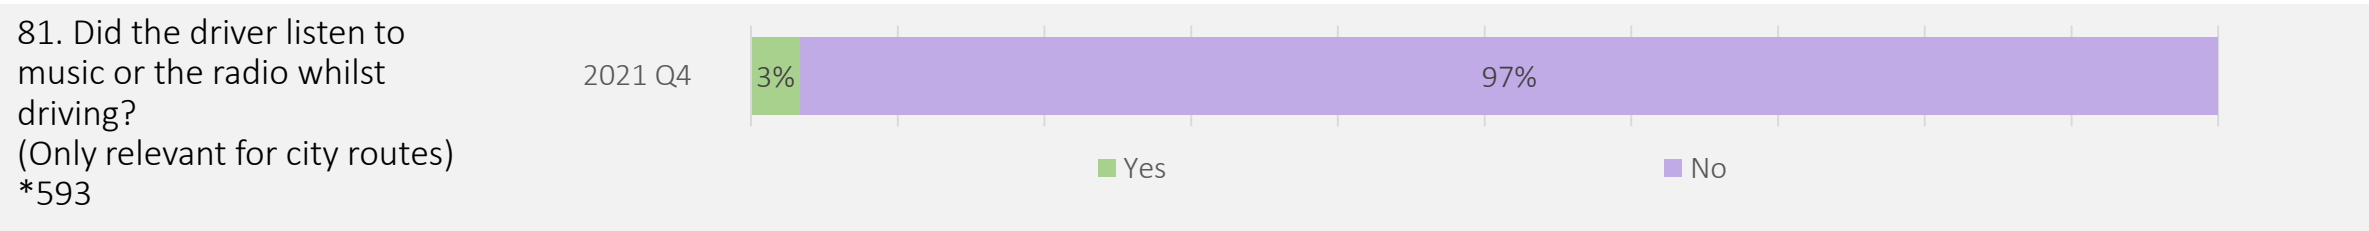

Bus Driver Performance

80. Did the bus driver do any of the following while driving?
 (NB Base size may be greater than the total number of assessments as one or more may be selected.) *593

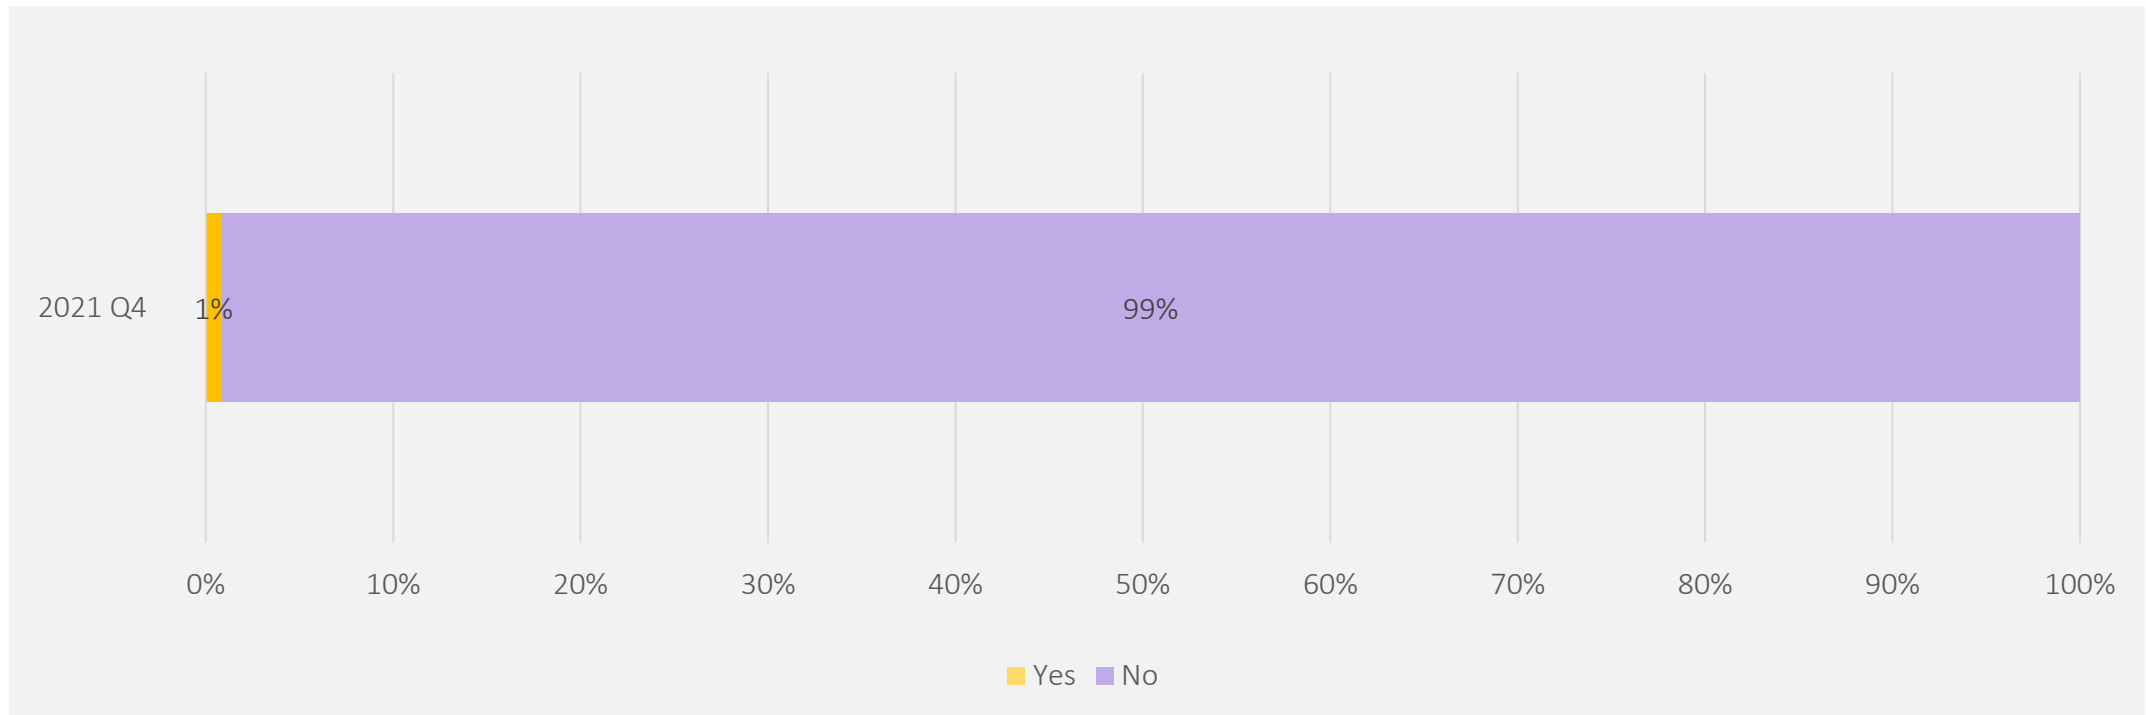

Bus Driver Performance

Other Driver Behaviours

Bus Driver Performance

86. Did bus terminate early or divert off course? *593

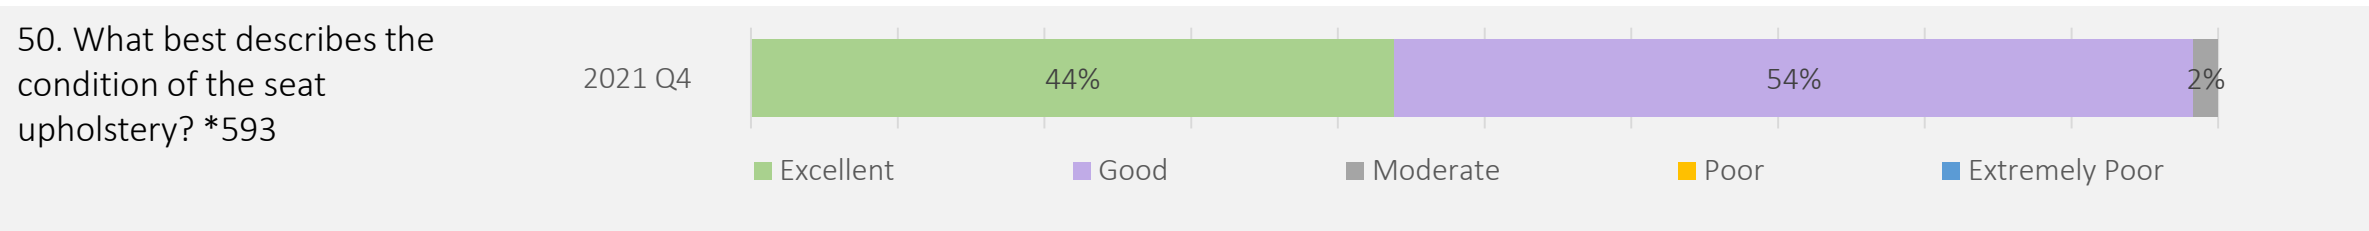

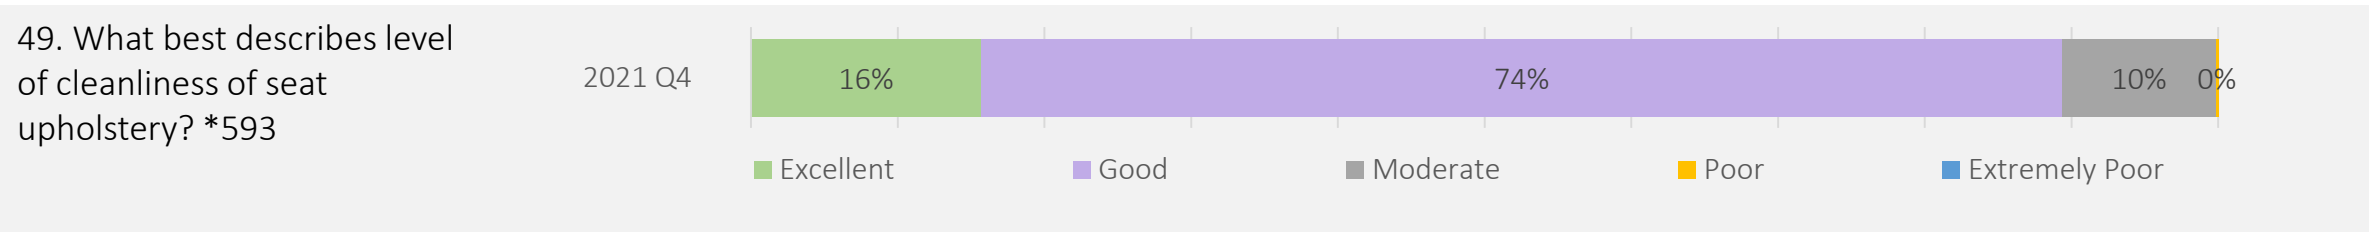

Cleanliness Performance - Bus Cleanliness

Contains questions relating to the following Bus Cleanliness Performance:

- Seat Cleanliness and Condition
- Floors and Stairs Cleanliness and Level of Litter
- Panels, Ceilings, Stairs and Other Fixtures and Fittings Cleanliness and Condition
- Window Cleanliness and Condition
- External Bus Cleanliness and Condition

Cleanliness Performance - Bus Cleanliness

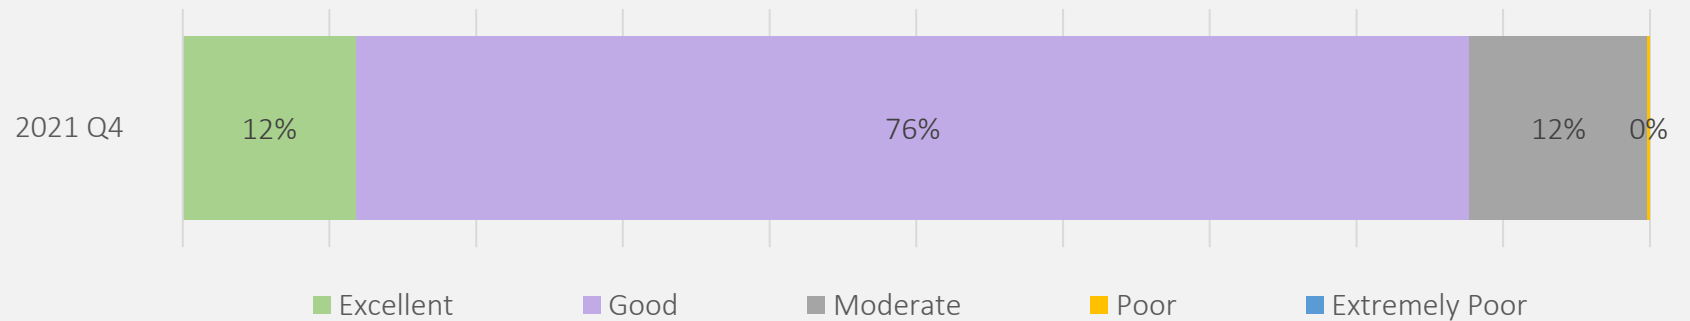

Seat Cleanliness and Condition

2021 Q4

14 Was there any offensive graffiti or etching on seating in the head office? *1

2021 Q4

Assessment measures

Questions referring to bus cleanliness, condition and graffiti all use a “five-point scale”. This is a scale that offers five response options starting with the most positive (Excellent) and ending with the most negative (Extremely Poor). The description for each of these scale points are listed below;

Cleanliness	Condition	Graffiti	Litter
Excellent - no evidence of dirt, dust, staining, marks or fluids	Excellent - no visible damage / wear and tear	Excellent - no sign of graffiti	Excellent - no litter whatsoever
Good - very little evidence of dirt, dust, staining, marks or fluids	Good - very little damage / wear and tear	Good - a very small amount of graffiti	Good - very small amount of litter
Moderate - some evidence of dirt, dust, staining, marks or fluids building up	Moderate - some damage / wear and tear, but not in need of repair	Moderate - some evidence of graffiti	Moderate - litter beginning to build up
Poor - large amount of dirt, dust, staining, marks or fluids built up	Poor - large amount of damage, non-urgent attention recommended	Poor - a large amount of graffiti	Poor - large amounts of litter
Extremely Poor - extensive amount of dirt, dust, staining, marks or fluids built up	Extremely Poor - extensive damage, repair urgently needed	Extremely Poor - very heavy graffiti	Extremely Poor - very heavily littered
