<sup>\*</sup> The estimated implementation dates are indicative and may well change for a number of reasons. These are:

Given the rapidly changing environment, it is important that the Connecting Ireland team is agile and flexible in its management of the programme, so that where progress is impacted, other plans can be advanced instead. This Implementation Plan List revision 2.0 reflects the Authority's intention as of today, but is likely to change to respond to changing circumstances.

<sup>•</sup> The duration of the planning and design process, involving liaison with Local Authorities, Local Link Offices, representatives, lobby groups, passengers and transport service providers to provide enhanced levels of service in response to growth and changes in demand for transport;

<sup>·</sup> Discussions with operators where licensed services and proposed PSO services co-exist on the same corridor; and

Availability of service providers and drivers in particular following the impacts of Covid19 and macro-economic factors brought about by the conflict in Ukraine on the industry.
