

Making a valid application to renew an existing public bus passenger service licence

Only Licences which operate exactly as licensed will be renewed. If your current operation differs from your licence, a licence amendment will be required.

If the existing licence includes a sub-contractor to operate some or all of the proposed service, an updated signed sub-contracting agreement between the new Licence Holder and the sub-contractor will be required before the licence can issue.

For each licence, the Licence Holder will be notified by email of a final date by which all documentation and fees must be received by the Authority.

THIS DATE CANNOT BE EXTENDED.

Renewal applications received after this date will not be considered.

Applications can be made either electronically or in hard copy.

When making EFT payments to the NTA Bus Licensing bank account applicants must include their name or identifiable reference.

A standard EFT transfer allows 18 character spaces – you must detail the EFT name or reference associated with the payment of this application fee in the boxes below:

You must submit this form with evidence (e.g. receipt) of the EFT attached.

2. Cheques and Postal Orders are also accepted if made payable to:

National Transport Authority.

Cash will not be accepted

The obligation rests with the applicant to prove payment of the fee.

The NTA strongly advises that evidence of payment should be obtained by the applicant.

Renewals will not be considered unless the fee has been received.

Licence Issue	0	0	0

How do I calculate the applicable Fee Band?

The Fee Band applicable to any application is based upon the number of services provided each year. The number of services per year will be calculated as follows:

- an outbound service is 1 service; an outbound and return service is 2 services (1 vehicle maximum being used to provide the service)
 - where a service operates a part of the overall route, or an express version of the route, these will be counted as one service.
- where the service has licensed augmenting services (i.e. is licensed to operate with 2 or more vehicles), the augmenting services will be counted as 0.5 of a service (to allow for the fact that they may not operate).
- where a service operates for the college term only, then the service will be calculated as operating for 35 weeks of the year, to allow for college holidays, breaks, lower frequency required for exams, etc.

Appendix 2: Routing Information

The route includes all roads and stops are highlighted in bold text. All roads in between each stop must be included. If writing the route and stops by hand, please underline the stops.
