Robert Kelly

Partner at DBFL Consulting Engineers

Robert Kelly is a Chartered Engineer & Director with DBFL Consulting Engineers leading the company's Transportation business which has grown significantly in the past number of years across DBFL's offices in Dublin, Cork, Waterford & Galway. Since graduating from Trinity College, Dublin, Robert has amassed almost 20 years of experience in the Traffic Engineering & Transportation Planning area. His traffic engineering experience includes the design of roads and complex junctions, in conjunction with traffic analysis. Robert has also significant experience in designing for cyclists, pedestrians and various modes of public transport including buses and trams. Robert has also gained experience in Intelligent Transport Systems (ITS) and has substantial experience in the design of traffic signals within UTC systems such as SCATS, SCOOT, SPOT Utopia and MOVA.
