## Uni-Travel

is a **bike-sharing initiative** designed to **streamline** urban commuting by offering a **convenient bridge** between various public transport modes, **enhancing travel for all** commuters.

### Problem Area

From **finding efficient public transport difficult**, to the **lack** of immediate, environmentally friendly **travel options** for **short distances**, many commuters have opted for the use of **private vehicles** instead.

### Mission Statement

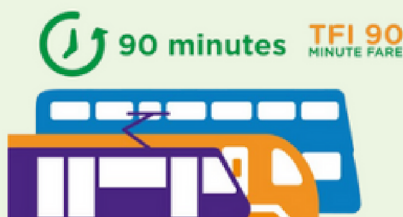

To **bridge gaps** between multi-modal forms of public transport and **effortlessly integrating cycling** with existing transportation infrastructure.

## Strategically placed docking stations

Located near **major transportation hubs**, housing estates, and **college campuses** for **easy access**.

Accessible using your **TFI Leap Card**, the **UNI-TRAVEL app\***, **Personal Access Code\*\***, and daily passes.

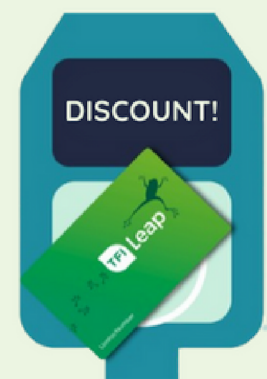

Need a break? **Don't pay for what you don't use!** **Pause your journey** and resume at your convenience.

\*exclusive to NFC compatible devices  
\*\*exclusive to monthly subscribers

## Gear-up and Go!

- 1) Locate a bike
- 2) Tap on
- 3) Enjoy your ride
- 4) Park & Tap off
- 5) Continue your journey with ease

## Flexible Fares

- Inclusion in the **TFI 90-minute** fare scheme\*
- **Monthly subscription** also available for those preferring bikes as their primary transport method

\*Standard TFI discount rates apply to children, students/young adults, and seniors

## UNI-TRAVEL App

allows access to **all essential information** and features.
