

MARCHATHON

3rd to 30th March 2025

How It Works:

1. **Walk and Observe:** Throughout the week, team members go on walks and take note of interesting, funny, or unusual observations.
2. **Collaborative Writing:** At the end of the week, each team member writes one sentence based on their walking experiences.
3. **Story Compilation:** The sentences are combined to form a complete story, often leading to amusing and unexpected narratives.
4. **Submission:** Teams submit their final stories for judging.

Judging Criteria:

- **Creativity:** How imaginative and original is the story?
- **Humor:** How funny and entertaining is the narrative?
- **Cohesion:** How well do the sentences flow together to create a coherent story?

Goal: The aim is to encourage team bonding, creativity, and physical activity, all while having a good laugh!
