

# ROLL ON

To provide complete accessibility solutions across public transportation modes of buses, trains and luas and close physical gaps to guarantee a barrier-free transit experience for all passengers, especially those utilising wheelchairs, mobility aids, or strollers.

AIM AND OBJECTIVES	WHAT?
<p>Increased Mobility: Provides equal access to social, professional, and educational opportunities for those with impairments.</p> <p>Positive Public Perception: Shows dedication to diversity and equity, which may boost ridership overall.</p> <p>The goal is to create an easily accessible and interactive app to help impaired users have an easy roll when using public transport and create a more sustainable future!</p>	<p>A mobile app called "Roll On" designed to improve accessibility for public transportation users with mobility impairments.</p> <p><b>WHY?</b></p> 
HOW IT WORKS	
	
<p>TAP. LOCATE. BOOK. ROLL ON</p>	

## THE PROBLEM

When scheduling assistance for train travel in Dublin, passengers with mobility impairments must give advance notice by phone or email, which causes delays and annoyance. This procedure has to be streamlined and made more accessible with a quicker, easier-to-use solution.

**LET'S BREAK THE BARRIER AND ROLL ON**

This problem must stop **NOW!** Let's be inclusive, sustainable and supportive together with the Roll On app!
