Research Background:

This research programme monitors service, quality and compliance with contractual Go Ahead requirements through ‘mystery shopping’ surveys, to measure key aspects of service delivery. This mystery shopping programme was designed to provide robust and actionable data to the National Transport Authority to measure the overall service performance of Go Ahead through the eyes of its ‘customers’.

160 mystery shops were conducted during Quarter 3 with mystery shoppers acting as passengers while waiting for and on-board selected routes. A broad spread of bus routes were covered across different days of the week and times of the day.

All mystery shops were carried out by highly trained Ipsos assessors. These interviewers use mobile devices which enable both discreet and effective captures of location, bus and driver details at stops, when boarding, on-board and after alighting buses.

2024 Quarter 3 took place between 17th June to 8th September 2024

The charts show the percentages of responses for each measure. The base sizes are marked with an asterisk.
