

2023 - 2025

Iarnród Éireann – PSO Services

Significant Lateness Report

Significant Lateness Overview

Significant Lateness is a KPI (Key performance indicator) of the performance of Iarnród Éireann as part of the terms of their PSO contract with the NTA.

Where a Service arrives at particular Timing Points significantly later than the scheduled arrival time, to such an extent that the next scheduled Service on the Route is likely to have already arrived at that Timing Point it, is considered to Significantly Late (as set out in the bullet points below).

- For DART and Commuter services, the threshold for significant lateness shall be over 30 minutes late, when compared with the scheduled arrival time at defined Timing Points specified in Schedule 2 Annex A of the contract.
- For Regional services, the threshold for significant lateness shall be over 60 minutes late, when compared with the scheduled arrival time at defined Timing Points as specified in Schedule 2 Annex A of the contract.
- For Intercity services, the threshold for significant lateness shall be over 120 minutes late, when compared with the scheduled arrival time at defined Timing Points as specified in Schedule 2 Annex A of the contract.
