

# INTRODUCING... TU DUBLIN REPAIR PODS

 **FIX MORE. WASTE LESS.**  
**TRAVEL GREEN.** 

**KEEPING BIKES AND SCOOTERS ROLLING – NOT ROTTING.**

## What are they?

Small on-campus stations, where students can repair their damaged bikes and scooters, free of charge.

## How does it work?

Each pod has:

- Tools for quick repairs
- A small 3D printer to make replacement bike parts
- Solar panels to power everything

## Why does it help?

This initiative means:

- ✓ Fewer bikes going to into landfill.
- ✓ Parts are reused and repaired instead of replaced
- ✓ Enables more students to choose low-carbon travel.
