

Lets' Ride!

An interactive website promoting cycle skills, including the rules of the road, how to change a puncture and how to lock your bike!

Locking

When you need to leave your bike unattended...put a lock on it!
Better safe than sorry!

Hand Signaling

As a cyclist, you don't have lights to signal so, use your hand to give directional signals to let other road users to let them know where you are going!

Safety

Before getting on the road, lets start with safety. Always wear your helmet, vest and use your bicylce lights.

A Puncture

Punctures can seem scary but if you follow our steps you will have your puncture fixed in no time!

Cycle Skills

You should know the cycling skills emergency stop - its really important to read up on your cycling skills. Save your life by reading these!
